No. 1263

11                   A P P L I C A T I O N

12           Come now Applicants, Gulf Oil Corporation, hereinafter called  
13 Gulf, and Western Oil Fields, Inc., hereinafter called Western, and  
14 show to the Commission:

15           1. Gulf is the owner and holder of an oil and gas lease dated  
16 April 3, 1944, from Ella E. Drinkard covering among other lands the  
17 N/2 of the NE/4 of Section 25, Township 22 South, Range 37 East,  
18 N.M.P.M., Lea County, New Mexico, said lease providing for a royalty  
19 of 1/8th of 8/8ths on oil and gas.

20           2. Western is the owner and holder of an oil and gas lease  
21 dated March 11, 1950, from Allen M. Drinkard and others covering  
22 among other lands the S/2 of the NE/4 of said Section 25, said lease  
23 providing for a royalty of 3/16ths of 8/8ths on oil and gas.

24           3. Allen M. Drinkard, Vivian H. Drinkard and Amanda E. Sims,  
25 as tenants in common, own all of the oil and gas royalties provided  
26 in said leases.

27           4. Prior to March 1, 1955, Gulf and Western in order to protect  
28 their correlative rights and comply with Order R-610 and R-586 of the  
29 Commission entered into an informal agreement for the pooling of  
30 all of their interests in the NE/4 of said Section 25 as to gas to  
31 be developed and produced from gas wells within the vertical limits  
32 of the Blinebry and Tubb Gas Pools. Said informal agreement was  
formalized by written agreement executed July 6, 1956, between Gulf  
and Western by which said parties pooled all of their interests in  
said tract as to gas to be developed and produced from gas wells

1 within the vertical limits of the Blinebry Gas Pool and within the  
2 vertical limits of the Tubb Gas Pool, said units to be known as  
3 pooled proration units. In said agreement Western is designated  
4 as the operator. Said agreement provides for the allocation of the  
5 dry gas and associated liquid hydrocarbons produced from said gas  
6 pools among the present or future owners of leasehold or royalty  
7 interests in the proportion that the acreage interest of each bears  
8 to the entire acreage in the NE/4 of said Section 25.

9 5. Allen M. Drinkard, Vivian H. Drinkard and Amanda E. Sims  
10 have each and all refused to consent to or ratify the pooling  
11 agreement.

12 6. Prior to March 1, 1955, Western completed a Blinebry gas  
13 well 660 feet from the east line and 1980 feet from the north line  
14 of said Section 25 and a Tubb gas well 1980 feet from the north  
15 line and 1980 feet from the east line of said Section 25, and as of  
16 March 1, 1955, Western on the basis of the informal pooling agree-  
17 ment applied for and was assigned by the Commission a 160-acre unit  
18 allowable from each of said gas wells and said allowable is still  
19 in effect. The total working interest production from said wells  
20 has at all times since March 1, 1955, been allocated one-half to  
21 Gulf and one-half to Western under their pooling agreement but  
22 Gulf's share of the production has been held in suspense because of  
23 the refusal of the above named royalty owners to consent to the  
24 pooling agreement.

25 7. The above named royalty owners claim that they are entitled  
26 to receive 3/16ths of all gas and associated liquid hydrocarbons  
27 produced from Western's said Tubb and Blinebry gas wells although  
28 one-half of the total production from said wells is allocated to  
29 Gulf by reason of its ownership of one-half of the total acreage  
30 in each of the above described units and under Gulf's said lease  
31 the royalty owners are entitled to receive only 1/8th of Gulf's  
32 share of said production.

1 8. Gulf has no gas wells on its lease covering the N/2 of the  
2 NE/4 of said Section 25 but will contribute its fair share to the  
3 costs of Western's gas wells. Western and Gulf will each suffer  
4 great economic loss if Gulf is required to drill gas wells in the  
5 Tubb and Blinebry Pools in order to obtain its fair share of the  
6 production from said pools. Western's gas wells will efficiently  
7 drain all of the gas underlying and properly belonging to the  
8 NE/4 of said Section 25 from each of the Tubb and Blinebry Gas Pools,  
9 as is found by the Commission in its said Orders R-586 and R-610.

10 9. The royalty interests of Allen M. Drinkard, Vivian H.  
11 Drinkard and Amanda E. Sims will not be adversely affected by the  
12 compulsory pooling of all of their royalties in the respective units  
13 provided by the pooling agreements.

14 10. In order to protect the correlative rights of the Applicants  
15 herein and to avoid the drilling of unnecessary wells, it is  
16 necessary that the royalty interests under the above described oil  
17 and gas leases be pooled by Commission order.

18 WHEREFORE APPLICANTS REQUEST that the Commission enter its  
19 order pooling all interests underlying the NE/4 of Section 25,  
20 Township 22 South, Range 37 East, Lea County, New Mexico, within  
21 the vertical limits of the Blinebry Gas Pool and within the vertical  
22 limits of the Tubb Gas Pool.

Dear Mr. Porter:

Enclosed please find copies of correspondence in regard to communitization on the R. Olsen Oil Co. Wimberley Well No. 1-H 23-25-37 and the Western Oil Fields, Inc. Drinkard No. 2-L 30-22-38 and Drinkard No. 4-H 25-22-37.

This office has nothing on file except a gas well plat that indicates a communitization agreement was effected on the Western Oil Fields, Inc. Drinkard No. 5-G, 25-22-37, Tubb Gas Pool. However the gas well plat has this notation "Gulf-Western Oil Fields Gas Unit", a copy of which is enclosed for your information.

Case # 1263

February 23, 1955

Mr. A. L. Porter, Jr.  
Oil Conservation Commission  
P. O. Box 2045  
Hobbs, New Mexico

Dear Mr. Porter:

I am enclosing forms C-104 requesting an increase in gas and distillate allowable for our Drinkard #2 and Drinkard #4 wells in Lea County, New Mexico.

We have recently completed a unitization agreement with Gulf Oil Corporation and now respectfully request that the Oil Conservation Commission grant these wells recognition as being contained within a full 160 acre unit, and full allowables granted commencing March 1, 1955.

I am also enclosing for your approval form C-104 requesting full allowable on gas and distillate on our Gulf-State #1 well in Lea County, New Mexico. In a letter from Mr. W. B. Middlemist of this office dated September 24, 1955, we made this request, but I cannot find a reply from your office. I also note that in the gas proration schedule, Gulf-State #1-A is still recognized as only 80 acres, .50 unit.

Mr. Middlemist is at present on vacation so perhaps I am in error on the above paragraph, but I am sure that you will agree that the matter requires attention.

I would like to request then that the Gulf-State #1-A also be put on full allowable and retroactive to October 1, 1954.

If your file on the information that we have sent you is incomplete, please contact me at your earliest convenience and I will be happy to clarify anything that you may have in question.

Very truly yours,

WESTERN OIL FIELDS, INC.
