MONUMENT FIELD, LEA COUNTY, NEW MEXICO.)

CASE NO. 293

ORDER NO. _____

A P P L I C A T I O N

Comes now Skelly Oil Company, Tulsa, Oklahoma, and alleges and states the following:

1. That it has completed its Van Etten No. 9 Well in the center of the SE/4 NW/4 SW/4 Section 9-20S-37E, on March 29, 1951, as a gas well.
2. That this well is a dual completion producing gas from the Queen Formation from the open hole below 7" casing set at 3531' to a total depth of 3770', and also producing gas from the Yates Formation through perforations from 3220' to 3240' with 40 shots.
3. That said well was completed as a dual completion by running 2½" tubing with a Guiberson packer set at 3320' capable of producing gas through the tubing and the Yates gas through the annulus.
4. That the granting of this application for permission to produce gas dually from the Queen Formation and the Yates Formation is in the interest of conservation and the protection of correlative rights.
5. That applicant will do such things as may be required of it by this Commission in the maintenance of separation of production from said two horizons.
6. That such method of producing from both horizons is mechanically safe and sound and is practical to operate.

Wherefore applicant prays that this Commission set this application for a day certain to be heard after the giving of notice as required by law and its orders, rules and regulations, and that after said hearing that it grant such relief as requested herein and for such other orders, rules and regulations as it may deem necessary in order to promote conservation by the prevention of waste thereof and protect the correlative rights of this applicant.

Respectfully submitted,

SKELLY OIL COMPANY
