**3RF-51 - ROSA UNIT 658H API 30-039-31406, ROSA UNIT 662H AP FACILITY ID [fVV2208439907]**

Good morning Ms. Trujillo,

NMOCD has reviewed the facility Closure request submitted by LOGOS OPERATING, LLC [289408] on January 23, 2023, for 3RF-51 - ROSA UNIT 658H API 30-039-31406, ROSA UNIT 662H AP FACILITY ID [fVV2208439907] in K-30-31N-05W Rio Arriba, NM. The closure report has been approved.

- Please note that according to NMAC 19.15.34.14.E. Once the operator has closed the recycling containment, the operator shall reclaim the containment's location to a safe and stable condition that blends with the surrounding undisturbed area. Topsoils and subsoils shall be replaced to their original relative positions and contoured so as to achieve erosion control, long-term stability and preservation of surface water flow patterns. The disturbed area shall then be reseeded in the first favorable growing season following closure of a recycling containment. The operator shall substantially restore the impacted surface area to the condition that existed prior to the construction of the recycling containment.
- Per NMAC 19.15.34.14.G: The re-vegetation and reclamation obligations imposed by federal, state trust land or tribal agencies on lands managed by those agencies shall supersede these provisions and govern the obligations of any operator subject to those provisions, provided that the other requirements provide equal or better protection of fresh water, human health, and the environment. In accordance with 19.15.34.14.H, the operator shall notify the division when reclamation and re-vegetation are complete.

Please let me know if you have any additional questions.
