yes ma'am there was never a pond. Our guys wanted to keep the bond with you in anticipation of upcoming work. The AST was moved out and the site tested etc. We have not done the remediation work yet. I just assumed I needed to keep up with the C148's

haha I promise I am learning this, it's just a process for me

thank you for your help,
Chad

Good morning Mr. Gallagher,
We approved the closure of the AST, but I read the cover letter that said the inground pond was never constructed. Is that correct? If that is the case, I'll close out the permit in the system, and you won't have to submit any additional C-148. Sorry if I misunderstood the closure request.
Please clarify.

Thank you for this email. We actually closed it under a modified closure, and it was approved. We have not reclaimed the site yet to get the bond released. Am I not supposed to continue the C148's until it is 100% closed?

Thank you,
Chad

Mr. Gallagher,

Please remember that the extension of the cessation of operations for permit 1RF-466 expires on 08/31/2023.

- 1RF-466 - Longhorn Water Treatment and Reuse Facility Number [fVV2111958376] extension of cessation of operations is approved from March 1, 2023, to August 31, 2023. Per NMAC 19.15.34.13.C extensions are considered for a maximum length of six months. **However, if after this 6-month period, the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.**
