Re: Red Tank Recycling Facility and Central Containment (1RF-434) C-147 Annual Registration Extension

To Whom It May Concern,

Oxy USA Inc. submits the enclosed C-147 form and summary of monthly containment and leak detection inspections for the Red Tank Recycling Facility and Central Containment (1RF-434). In accordance with NMAC 19.15.34.10 RECYCLING CONTAINMENTS, Oxy USA Inc. requests a one-year permit extension for the above-mentioned facility, valid from November 4, 2023, through November 4, 2024.

Included with this submittal is a summary of the monthly inspections, including the monitoring of the leak detection system, showing the containment's integrity has not been compromised, from the previous registration renewal to the present. For original site plans and supporting documents, please refer to the facility's original permit application, OCD Registration number 1RF-433.

Should you have any questions or require additional information, please contact me at your convenience.

Sincerely,

Justin Steinmann

1RF-434 - RED TANK RECYCLING FACILITY & CONTAINMENTS FACILITY ID [FOY1830836044]

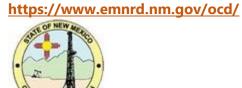

Good morning,

NMOCD has reviewed the determination of registration/permit extension request for 1RF-434 - RED TANK RECYCLING FACILITY & CONTAINMENTS FACILITY ID [FOY1830836044] received from [16696] OXY USA INC on 10/4/2023. The registration/permit extension request is approved with the following conditions of approval:

- The 1RF-434 RED TANK RECYCLING FACILITY & CONTAINMENTS FACILITY ID [FOY1830836044] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of November 04, 2023. The new registration/permit expiration date is November 04, 2024.
- [16696] OXY USA INC will continue to operate, maintain, and close the 1RF-434 RED TANK RECYCLING FACILITY & CONTAINMENTS FACILITY ID [FOY1830836044] in compliance with 19.15.34 NMAC, to include but not limited to the performance of weekly inspections regardless of fluid levels in the containment; recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from C-148.
- [16696] OXY USA INC will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. [16696] OXY USA INC may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every consecutive six months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to OCD Online.
 An extension to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 form through the OCD Online system.
- However, if after this 6-month period, the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.
- The recycling containment is bonded pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC. Water reuse
 and recycling from 1RF-434 RED TANK RECYCLING FACILITY & CONTAINMENTS FACILITY ID
 [FOY1830836044] is limited to wells owned or operated by [16696] OXY USA INC.
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- [16696] OXY USA INC will comply with 19.15.29 NMAC Releases in the event of any release of produced water or produced water or other oil field wastes at 1RF-434 RED TANK RECYCLING FACILITY & CONTAINMENTS FACILITY ID [FOY1830836044]. [16696] OXY USA INC will comply with all other OCD rules.
- [16696] OXY USA INC must perform weekly inspections of the containment and leak detection system.
- If [16696] OXY USA INC wishes to extend the registration/permit past the November 04, 2023, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD through the OCD Online on a Form C-147 (long form) as an Extension request and should include a formal extension request letter, a summary of the prior registration/permit period inspection reports, and the copies of the detailed inspection records for the prior permit period (2023-2024). The extension request should be submitted no later than October 04, 2023.

Please let me know if you have any further questions or concerns. Regards,

Victoria Venegas ● Environmental Specialist Environmental Bureau EMNRD - Oil Conservation Division 506 W. Texas Ave. Artesia, NM 88210 (575) 909-0269 | Victoria.Venegas@emnrd.nm.gov
