**Re: Corral Fly Recycling Facility (2RF-119 A-F) and Containments C-147 Annual Registration Extension**

To Whom It May Concern,

Oxy USA Inc. submits the enclosed C-147 form and summary of monthly containment and leak detection inspections for the Corral Fly Recycling Facility (2RF-119 A-F) and associated containments. In accordance with *NMAC 19.15.34.10 Recycling Containments*, Oxy USA Inc. requests a one-year registration extension, valid from February 14, 2023, through February 14, 2024, for the Corral Fly Recycling Facility (2RF-119), recycling containments (A-F), and two 60,000 barrel ASTs as described in the initial registration approved February 14, 2018, and registration modification submitted May 23, 2018.

For original site plans and the detailed closure completion steps that will be taken, in accordance with *NMAC 19.15.34.14*, please refer to the facility's original registration (C-147), OCD Registration Number 2RF-119 A-F, and the modifications to registration dated May 23, 2018.

Should you have any questions or require additional information, please contact me at your convenience.

Sincerely,

A handwritten signature in blue ink that reads "Chantill Recker". The signature is fluid and cursive, with the first name "Chantill" and last name "Recker" clearly distinguishable.

**2RF-119 - Corral Fly Recycling and Containment Facility ID [fAB1804555023]  
OXY USA INC [16696]**

NMOCD has reviewed the determination of registration/permit annual extension request for 2RF-119 - Corral Fly Recycling and Containment Facility ID [fAB1804555023], received from OXY USA INC [16696] on 01/11/2023. The registration/permit extension request is approved with the following conditions of approval:

- 2RF-119 - Corral Fly Recycling and Containment Facility ID [fAB1804555023] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of February 14, 2023. The new registration/permit expiration date is February 14, 2024.
- OXY USA INC [16696] will continue to operate, maintain, and close the 2RF-119 - Corral Fly Recycling and Containment Facility ID [fAB1804555023] in compliance with 19.15.34 NMAC, to include but not limited to the performance of weekly inspections regardless of fluid levels in the containment (NMAC 19.15.34.13); recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from C-148.
- OXY USA INC [16696] will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. OXY USA INC [16696] may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every consecutive six months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to [OCD Online](#). A request to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 long form through [OCD Online](#).
- OCD will grant an additional 6 months to operate the containment if all the requirements of 19.15.34 are met. However, if after that 6-month period the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements per 19.15.34.14.
- The recycling containment is bonded pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC. Water reuse and recycling from 2RF-119 - Corral Fly Recycling and Containment Facility ID [fAB1804555023] is limited to wells owned or operated by OXY USA INC [16696].
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- OXY USA INC [16696] will comply with 19.15.29 NMAC Releases in the event of any release of produced water or produced water or other oil field wastes at 2RF-119 - Corral Fly Recycling and Containment Facility ID [fAB1804555023].
- OXY USA INC [16696] will comply with all other OCD rules.
- OXY USA INC [16696] must perform weekly inspections of the containment and leak detection system.
- If OXY USA INC [16696] wishes to extend the registration/permit past February 14, 2024, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD through the [OCD Online](#) system on a Form C-147 (long form) as an Extension request and should include a formal extension request letter, a summary of the prior registration/permit period inspection reports, and the copies of the detailed inspection records for the prior permit period. The extension request should be submitted no later than January 14, 2024.

**Please, read these conditions of approval carefully. The next annual extension request must include the weekly inspections of each pond under permit 2RF-119 per NMAC 19.15.34.13.A. If this requirement is not met, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.**

Please let me know if you have any additional questions.
