

**C-147 Bonding Modification request (Hayhurst NM 2RF-107)**

Date: 2/13/24

NMOCD,

Chevron MCBU is requesting a bonding modification from NMOCD for our 2RF-107 Hayhurst Sections 9 and 10 Recycling Facility - Facility ID [fMLB1702342252] (Recycling Water Containments Structure; RWCS), due to allowing options to comply with the conditions of approval of utilizing 20% fluid capacity during a 6-month period. Currently, existing bonding C-147 (2RF-107) only allows Chevron MCBU to utilize the fluid capacity. Modifying the bonding will allow sharing the RWCS fluid with other companies/parties who have drilling/fracking operations in the area. An additional benefit of this modified bonding may also decrease surface disturbance of building multiple RWCSs in the area in the future.

Current, existing C-147 (2RF-107):

- 2RF-107 – Hayhurst Sections 9 and 10 Recycling Facility - Facility ID [fMLB1702342252] will operate as originally permitted. [4323] CHEVRON USA INC will comply with all conditions previously approved for permit 2RF-107 - Hayhurst Sections 9 and 10 Recycling Facility - Facility ID [fMLB1702342252]. No changes will be made to operation, maintenance and monitoring procedures, or closure procedures.

Thank you for your time and support.

**Thank you,
Tony Vallejo**
