May 2, 2024

Ms. Victoria Venegas, Environmental Specialist EMNRD- Oil Conservation Division 506 W. Texas Artesia, NM 88210

Re: EOG South Red Hills 1RF-12-0

Dear Ms. Venegas:

Thank you for allowing EOG to continue to promote water reuse in the State of New Mexico for our operations. EOG plans to continue active completion operations near this pit location into 2024. We would like to request an annual extension of the permit from 05/05/2024-05/05/2025.

Sincerely,

•

Patricia Donald

Patricia Donald Regulatory Specialist

Revised October 11, 2022

State of New Mexico **Energy Minerals and Natural Resources** Department Oil Conservation Division 1220 South St. Francis Dr.

Santa Fe, NM 87505 https://www.emnrd.nm.gov/ocd/ocd-e-permitting/

Recycling Facility and/or Recycling Containment
Type of Facility: X Recycling Facility X Recycling Containment* Type of action: X Permit Registration Modification X Extension Closure Other (explain)
At the time C-147 is submitted to the division for a Recycling Containment, a copy shall be provided to the surface owner.
Be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.
Operator: EOG RESOURCES (For multiple operators attach page with information) OGRID #: 7377
Address: 5509 CHAMPIONS DRIVE MIDLAND TEXAS 79706
Facility or well name (include API# if associated with a well): SOUTH RED HILLS REUSE WATER RECYCLING AND CONTAINMENT PIT OCD Permit Number: 1RF-12 (For new facilities the permit number will be assigned by the district office) U/L or Qtr/Qtr M SW/SW Section 22 Township 26S Range 33E County: LEA Surface Owner: Federal State Private Tribal Trust or Indian Allotment
2.
Recycling Facility:
Location of recycling facility (if applicable): Latitude <u>32deg 01'19.38N</u> Longitude <u>103 deg 34' 04.26W</u> NAD83
Proposed Use: ☐ Drilling* ☒ Completion* ☐ Production* ☐ Plugging *
*The re-use of produced water may NOT be used until fresh water zones are cased and cemented
Other, requires permit for other uses. Describe use, process, testing, volume of produced water and ensure there will be no adverse impact on
groundwater or surface water.
☐ Fluid Storage
X Above ground tanks ☐ Recycling containment ☐ Activity permitted under 19.15.17 NMAC explain type
Activity permitted under 19.15.36 NMAC explain type: Other explain
☐ For multiple or additional recycling containments, attach design and location information of each containment
Closure Report (required within 60 days of closure completion): Recycling Facility Closure Completion Date:
3. X Recycling Containment:
Annual Extension after initial 5 years (attach summary of monthly leak detection inspections for previous year)
Center of Recycling Containment (if applicable): Latitude 32 deg 01 19.59n Longitude 103 deg 33'58.09w NAD83
For multiple or additional recycling containments, attach design and location information of each containment
 ✓ Lined ✓ Liner type: Thickness 60 mil ☐ LLDPE ✓ HDPE ☐ PVC ☐ Other
String-Reinforced
Liner Seams: X Welded Factory Other Volume: 930,000 bbl Dimensions: L 530 x W 530 x D 15
Recycling Containment Closure Completion Date:

Bonding: Covered under bonding pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC (These containments are limited to only the wells	s owned or
operated by the owners of the containment.)	
Bonding in accordance with 19.15.34.15(A)(1). Amount of bond \$ (work on these facilities cannot commence	until bonding
amounts are approved)	_
Attach closure cost estimate and documentation on how the closure cost was calculated.	
Fencing: Four foot height, four strands of barbed wire evenly spaced between one and four feet Alternate. Please specify six foot chain link with 3 strnds 45 degree barbed wire top	
6. Signs:

1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249].

Good afternoon Ms. Donald,

NMOCD has reviewed the permit annual extension request for 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249], received from EOG RESOURCES INC [7377] on 05/02/2024 Application ID 339943. The registration/permit extension request is approved with the following conditions of approval:

- The 1RF-12 South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of May 5, 2024. The new registration/permit expiration date is May 5, 2025.
- EOG RESOURCES INC [7377] will continue to operate, maintain, and close the 1RF-12 South Red Hills Reuse
 Water Facility and Containment Pit Facility ID [fTO1716429249] in compliance with 19.15.34 NMAC, to include
 but not limited to the performance of weekly inspections regardless of fluid levels in the containment;
 recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and
 monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from
 C-148.
- EOG RESOURCES INC [7377] will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. EOG RESOURCES INC [7377] may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every consecutive six months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to OCD Online. An extension to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 form through OCD Online. However, if after that 6-month period, the containment was not utilized at a minimum of 20% fluid capacity, no additional extensions would be granted, and the operator would be directed to remove all fluids and proceed with the closure requirements.
- The recycling containment is bonded pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC. Water reuse and recycling from 1RF-12 South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249] is limited to wells owned or operated by EOG RESOURCES INC [7377].
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- EOG RESOURCES INC [7377] will comply with 19.15.29 NMAC Releases in the event of any release of produced water or produced water or other oil field wastes at 1RF-12 - South Red Hills Reuse Water Facility and Containment Pit Facility ID [fTO1716429249]. EOG RESOURCES INC [7377] will comply with all other OCD rules.
- EOG RESOURCES INC [7377] must perform weekly inspections of the containment and leak detection system.
- If EOG RESOURCES INC [7377] wishes to extend the registration/permit past May 5, 2024, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD through the OCD Online system on a Form C-147 (long form) as an Extension request and should include a formal extension request letter, a summary of the prior

registration/permit period inspection reports, and the copies of the detailed inspection records for the prior permit period. The extension request should be submitted no later than April 5, 2025.

Please let me know if you have any additional questions. Regards,
