.

Netting: Subsection E of 19.15.17.11 NMAC (Applies to permanent pits and permanent open top tanks)

Screen Netting Other\_

Monthly inspections (If netting or screening is not physically feasible)

#### Signs: Subsection C of 19.15.17.11 NMAC

12"x 24", 2" lettering, providing Operator's name, site location, and emergency telephone numbers

Signed in compliance with 19.15.16.8 NMAC

#### Variances and Exceptions:

Justifications and/or demonstrations of equivalency are required. Please refer to 19.15.17 NMAC for guidance.

Please check a box if one or more of the following is requested, if not leave blank:

Variance(s): Requests must be submitted to the appropriate division district for consideration of approval.60-day extension requested in letter attached Exception(s): Requests must be submitted to the Santa Fe Environmental Bureau office for consideration of approval.

# Siting Criteria (regarding permitting): 19.15.17.10 NMAC Instructions: The applicant must demonstrate compliance for each siting criteria below in the application. Recommendations of acceptable source material are provided below. Siting criteria does not apply to drying pads or above-grade tanks. General siting Ground water is less than 25 feet below the bottom of a low chloride temporary pit or below-grade tank.

Below Grade Tanks	
Within a 100-year floodplain. ( <b>Does not apply to below grade tanks</b> ) - FEMA map	🗌 Yes 🗹 No
<ul> <li>Within an unstable area. (Does not apply to below grade tanks)</li> <li>Engineering measures incorporated into the design; NM Bureau of Geology &amp; Mineral Resources; USGS; NM Geological Society; Topographic map</li> </ul>	🗌 Yes 🗹 No
<ul> <li>Within the area overlying a subsurface mine. (Does not apply to below grade tanks)</li> <li>Written confirmation or verification or map from the NM EMNRD-Mining and Mineral Division</li> </ul>	🗌 Yes 🛛 No
Within incorporated municipal boundaries or within a defined municipal fresh water well field covered under a municipal ordinance adopted pursuant to NMSA 1978, Section 3-27-3, as amended. ( <b>Does not apply to below grade tanks</b> ) - Written confirmation or verification from the municipality; Written approval obtained from the municipality	🗌 Yes 🛛 No
Ground water is less than 50 feet below the bottom of a Temporary pit, permanent pit, or Multi-Well Fluid Management pit. NM Office of the State Engineer - iWATERS database search; USGS; Data obtained from nearby wells	□ Yes ☑ No □ NA
- INM Office of the State Engineer - iWATERS database search; USGS; Data obtained from nearby wells	

<ul> <li>Within 100 feet of a continuously flowing watercourse, significant watercourse, lake bed, sinkhole, wetland or playa lake (measured from the ordinary high-water mark).</li> <li>Topographic map; Visual inspection (certification) of the proposed site</li> </ul>	
	🗌 Yes 🗌 No

- NM Office of the State Engineer - iWATERS database search; Visual inspection (certification) of the proposed site

### Temporary Pit using Low Chloride Drilling Fluid (maximum chloride content 15,000 mg/liter)

Within 100 feet of a continuously flowing watercourse, or any other significant watercourse or within 200 feet of any lakebed, sinkhole, or playa lake (measured from the ordinary high-water mark). (Applies to low chloride temporary pits.)

- Topographic map; Visual inspection (certification) of the proposed site

Within 300 feet from a occupied permanent residence, school, hospital, institution, or church in existence at the time of initial		
application.		
- Visual inspection (certification) of the proposed site; Aerial photo; Satellite image		

Within 200 horizontal feet of a spring or a private, domestic fresh water well used by less than five households for domestic or stock watering purposes, or 300feet of any other fresh water well or spring, in existence at the time of the initial application. NM Office of the State Engineer - iWATERS database search; Visual inspection (certification) of the proposed site

Yes No

EMNRD - New Mexico Oil Conservation Division 1220 South Saint Francis Drive Sante Fe, NM 87505

RE: Chevron Temporary Pit Closure Extension Request Javelina Unit 405 (405H, 406H, 407H, 408H) Facility ID: fVV22103499229 BLM Lease #USA NMNM 063757 Section 9, T24S, R31E

To Whom It May Concern:

This submittal serves as notice of an extension request to the New Mexico Oil Conservation Division (NMOCD) regarding the above referenced pit. Chevron respectfully requests a 60-day extension due to scheduling delays caused by the extended closure of another temporary pit which pushed back the planned construction schedule for pit closure of the above referenced pit.

Thank you for your consideration of the requested 60-day extension.

Sincerely,

John Fauflet

John Faught, GIT Project Manager Tetra Tech, Inc.
