2RF-109 JT PIT FACILITY ID [fMLB1722856120]

Good afternoon Ms. Donald.

The NMOCD has reviewed the registration/permit annual extension request for 2RF-109 JT PIT FACILITY ID [fMLB1722856120], received from [7377] EOG RESOURCES INC on 06/19/2025, Application ID **476988**. The registration/permit extension request is approved with the following conditions of approval:

- 2RF-109 JT PIT FACILITY ID [FMLB1722856120] is approved for one (1) year of operation from the date of the previous registration/permit expiration date of 07/27/2025. The new registration/permit expiration date is 07/27/2026.
- [7377] EOG RESOURCES INC will continue to operate, maintain, and close the 2RF-109 JT PIT FACILITY ID [FMLB1722856120] in compliance with 19.15.34 NMAC, to include but not limited to the performance of weekly inspections regardless of fluid levels in the containment; recording of detailed inspection reports; removal of debris, foreign objects and oil from the containment; and monthly reporting of recycling and reuse of produced water, drilling fluids, and liquid oil field waste via from C-148, even if there is zero activity.
- [7377] EOG RESOURCES INC will maintain a liquid level in the containment that is at least equal to the weight of the liner plus 20%. [7377] EOG RESOURCES INC may maintain a higher liquid level if they choose.
- If less than 20% of the total fluid capacity is utilized every consecutive six months, operation of the facility is considered ceased and notification of cessation of operations should be sent electronically to OCD Permitting. A request to extend the cessation of operations, not to exceed six months, may be submitted using a C-147 long form through OCD Permitting.
- The recycling containment is bonded pursuant to 19.15.8 NMAC per 19.15.34.15(A)(2) NMAC. Water reused and recycled from 2RF-109 JT PIT FACILITY ID [FMLB1722856120] is limited to wells owned or operated by [7377] EOG RESOURCES INC.
- A minimum of 3-feet freeboard must be maintained in the recycling containment at all times.
- [7377] EOG RESOURCES INC will comply with 19.15.29 NMAC Releases in the event of any release of produced water or produced water or other oil field wastes at 2RF-109 JT PIT FACILITY ID [FMLB1722856120].
- [7377] EOG RESOURCES INC will comply with all OCD rules.
- [7377] EOG RESOURCES INC must perform weekly inspections of the containment and leak detection system.
- If [7377] EOG RESOURCES INC wishes to extend the registration/permit past 7/27/2026, a registration/permit extension request must be submitted to OCD. Extension requests are reviewed on a case-by-case basis and evaluated on their merit. Extensions are considered for a maximum length of one year. Additional requests must be submitted to OCD through OCD Permitting on a Form C-147 (long form) as an Extension request and should include a formal extension request letter, a summary of the prior registration/permit period inspection reports, and the copies of the detailed inspection records for the prior permit period. The extension request should be submitted no later than 06/27/2026.
