BEFORE THE OIL CONSERVATION COMMISSION  
OF THE STATE OF NEW MEXICO

ORDER NO. AG-N-35-0

SUPPLEMENTAL GAS PRORATION ORDER FOR THE MONTH  
OF MARCH, 1974

This cause came on for public hearing by the Commission's Examiner, Richard L. Stamets, at Santa Fe, New Mexico, on February 13, 1974, at 9 a.m., pursuant to legal notice for the purpose of setting the allowable production of gas from the following nine gas pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, for the month of March, 1974.

Basin-Dakota, Blanco-Mesaverde, Aztec-Pictured Cliffs, Ballard-Pictured Cliffs, Blanco-Pictured Cliffs, South, Fulcher Kutz-Pictured Cliffs, Kutz-Pictured Cliffs, West, Tapacito-Pictured Cliffs, and Devils Fork-Gallup.

NOW, on this 21st day of February, 1974, the Commission, a quorum being present, having considered the supplemental nominations of purchasers, the capacity of producing wells, and the recommendations of the Examiner, and being otherwise fully advised in the premises,

FINDS:

(1) That the total nomination of purchasers of gas produced from the above-listed nine gas pools for the month of March, 1974, is 45,366,300 Mcf. The individual pool nominations are as follows:

Basin-Dakota	16,803,900 Mcf
Blanco-Mesaverde	20,827,000 Mcf
Aztec-Pictured Cliffs	1,117,500 Mcf
Ballard-Pictured Cliffs	1,233,600 Mcf
Blanco-Pictured Cliffs, South	3,350,500 Mcf
Fulcher Kutz-Pictured Cliffs	823,500 Mcf
Kutz-Pictured Cliffs, West	328,800 Mcf
Tapacito-Pictured Cliffs	853,600 Mcf
Devils Fork-Gallup	27,900 Mcf

(2) That the potential producing capacity of all gas wells in the nine gas pools listed above is in excess of the nominations of purchasers of gas, and in order to prevent waste and protect correlative rights, the production of gas from the above-listed nine gas pools should be limited, allocated, and distributed during the month of March, 1974.

(3) That all the producing gas wells, together with the expected completed or recompleted wells in the nine gas pools listed above, can produce a total of 45,366,300 Mcf without causing waste during the month of March, 1974, and an allocation based upon such production would be reasonable and would protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That for the month of March, 1974, the allowable production to be assigned the nine allocated gas pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, is as follows:

Basin-Dakota	16,803,900 Mcf
Blanco-Mesaverde	20,827,000 Mcf
Aztec-Pictured Cliffs	1,117,500 Mcf
Ballard-Pictured Cliffs	1,233,600 Mcf
Blanco-Pictured Cliffs, South	3,350,500 Mcf
Fulcher Kutz-Pictured Cliffs	823,500 Mcf
Kutz-Pictured Cliffs, West	328,800 Mcf
Tapacito-Pictured Cliffs	853,600 Mcf
Devils Fork-Gallup	27,900 Mcf

(2) That the allocation hereby set for the month of March, 1974, in the nine allocated pools in San Juan, Rio Arriba, and Sandoval Counties, New Mexico, shall be in accordance with the Commission Rules, Regulations, and Orders.

(3) That a proration schedule, duly prepared by the Commission and thereafter adopted for the month of March, 1974, is hereto attached and made a part hereof; it distributes and allocates the allowable production among the gas wells in the nine gas pools listed above for the period stated, in accordance with the Commission Rules, Regulations, and Orders.

The foregoing order shall remain effective until further order of the Commission.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
