# Gas Reporting - FIGHTING OKRA CTB 3 Unit Flare Meter 1

[Well Details Link](#)  
[Battery Overview w/ Trends](#)  
[General Info](#)

| Description              | Value  | Units |
|--------------------------|--------|-------|
| Flowcal Specific Gravity | 0.766  |       |
| Flowcal CO2 %            | 0.359  | %     |
| Flowcal H2S %            | 0      | %     |
| Flowcal N2 %             | 3.583  | %     |
| Flowcal O2 %             | 0      | %     |
| Flowcal H2 %             | 0      | %     |
| Flowcal Methane %        | 74.287 | %     |
| Flowcal Ethane %         | 11.191 | %     |
| Flowcal Propane %        | 6.304  | %     |
| Flowcal Heptane %        | 0      | %     |
| Flowcal Hexane %         | 0      | %     |
| Flowcal Isobutane %      | 0.749  | %     |
| Flowcal Isopentane %     | 1.835  | %     |
| Flowcal N-Butane %       | 1.835  | %     |

| surface_lat... | surface_long... | section_number | township_name | range_number | county_name | FMS Meter ID |
|----------------|-----------------|----------------|---------------|--------------|-------------|--------------|
| 32.05002       | -103.51600      | 18.0           | 26S           | 34E          | Lea         | 39011750     |

| Description   | Value |

**QUESTIONS****Determination of Reporting Requirements**

Answer all questions that apply. The Reason(s) statements are calculated based on your answers and may provide additional guidance.

|                                                                                                                                                                                                                                                                                          |                                               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|
| Was or is this venting or flaring caused by an emergency or malfunction                                                                                                                                                                                                                  | Yes                                           |
| Did or will this venting or flaring last eight hours or more cumulatively within any 24-hour period from a single event                                                                                                                                                                  | No                                            |
| Is this considered a submission for a notification of a major venting or flaring                                                                                                                                                                                                         | Yes, minor venting or flaring of natural gas. |
| <b>The operator shall file a form C-141 instead of a form C-129 for a release that includes liquid during venting or flaring that is or may be a major or minor release under 19.13.29.7 NMAC.</b>                                                                                       |                                               |
| Was there or will there be at least 50 MCF of natural gas vented or flared during this event                                                                                                                                                                                             | Yes                                           |
| Did this venting or flaring result in the release of ANY liquids (not fully and/or completely flared) that reached (or has a chance of reaching) the ground, a surface, a watercourse, or otherwise, with reasonable probability, endanger public health, the environment or fresh water | No                                            |

**Unregistered Facility Site**

Please provide the facility details, if the venting or flaring occurred or is occurring at a facility that does not have an Facility ID (##) yet.

|                       |                        |
|-----------------------|------------------------|
| Facility or Site Name | FIGHTING OKRA 18 CTB 3 |
| Facility Type         | Flare Stack - (FS)     |

**Equipment Involved**

|                                                           |                        |
|-----------------------------------------------------------|------------------------|
| Primary Equipment Involved                                | Gas Compressor Station |
| Additional details for Equipment Involved. Please specify | Not answered.          |

**Representative Compositional Analysis of Vented or Flared Natural Gas**

Please provide the mole percent for the percentage questions in this group.

|                                                                                                                                      |               |
|--------------------------------------------------------------------------------------------------------------------------------------|---------------|
| Methane (CH4) percentage                                                                                                             | 74            |
| Nitrogen (N2) percentage, if greater than one percent                                                                                | 4             |
| Hydrogen Sulfide (H2S) PPM, rounded up                                                                                               | 0             |
| Carbon Dioxide (CO2) percentage, if greater than one percent                                                                         | 0             |
| Oxygen (O2) percentage, if greater than one percent                                                                                  | 0             |
| <b>If you are venting and/or flaring because of Pipeline Specification, please provide the required specifications for each gas.</b> |               |
| Methane (CH4) percentage quality requirement                                                                                         | Not answered. |
| Nitrogen (N2) percentage quality requirement                                                                                         | Not answered. |
| Hydrogen Sulfide (H2S) PPM quality requirement                                                                                       | Not answered. |
| Carbon Dioxide (CO2) percentage quality requirement                                                                                  | Not answered. |
| Oxygen (O2) percentage quality requirement                                                                                           | Not answered. |

**Date(s) and Time(s)**

|                                                                                     |            |
|-------------------------------------------------------------------------------------|------------|
| Date venting or flaring was discovered or commenced                                 | 08/04/2021 |
| Time venting or flaring was discovered or commenced                                 | 05:32 PM   |
| Is the venting or flaring event complete                                            | Yes        |
| Date venting or flaring was terminated                                              | 08/04/2021 |
| Time venting or flaring was terminated                                              | 10:49 PM   |
| Total duration of venting or flaring in hours, if venting or flaring has terminated | 3          |
| Longest duration of cumulative hours within any 24-hour period during this event    | 3          |

**Measured or Estimated Volume of Vented or Flared Natural Gas**

|                                                                        |                                                                                                                          |
|------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                       | Not answered.                                                                                                            |
| Natural Gas Flared (Mcf) Details                                       | Cause: High Line Pressure   Other (Specify)   Natural Gas Flared   Spilled: 210 Mcf   Recovered: 0 Mcf   Lost: 210 Mcf ] |
| Other Released Details                                                 | Not answered.                                                                                                            |
| Additional details for Measured or Estimated Volume(s). Please specify | Not answered.                                                                                                            |
| Is this a gas only submission (i.e. only Mcf values reported)          | Yes, according to supplied volumes this appears to be a "gas only" report.                                               |

**Venting or Flaring Resulting from Downstream Activity**

|                                                                        |               |
|------------------------------------------------------------------------|---------------|
| Was or is this venting or flaring a result of downstream activity      | Yes           |
| Date notified of downstream activity requiring this venting or flaring | Not answered. |
| Time notified of downstream activity requiring this venting or flaring | Not answered. |

**Steps and Actions to Prevent Waste**

|                                                                                                                                |                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------|
| For this event, the operator could not have reasonably anticipated the current event and it was beyond the operator's control. | <a href="#">True</a>                                               |
| Please explain reason for why this event was beyond your operator's control                                                    | <a href="#">Lucid/Enterprise HLP</a>                               |
| Steps taken to limit the duration and magnitude of venting or flaring                                                          | <a href="#">Contact Lucid/Enterprise for ETA</a>                   |
