

Meter #: 17618-00  
Name: S.M.G.S.A.UNIT TRACT 1-10

**Sample**

Date: 02/09/2021  
Type: Spot  
Pressure: 32.0 H2O: lbs/mm  
Temperature: 79.0 H2S: 16,164 ppm

| Component             | Mole %   | Liquid Content | Mass %   |
|-----------------------|----------|----------------|----------|
| Carbon Dioxide, CO2   | 5.5360   |                | 8.2006   |
| Nitrogen, N2          | 5.7014   |                | 5.3759   |
| Methane, C1           | 48.1233  |                | 25.9855  |
| Ethane, C2            | 14.9815  | 4.0320         | 15.1628  |
| Propane, C3           | 13.7233  | 3.8047         | 20.3685  |
| Isobutane, iC4        | 1.8447   | 0.6075         | 3.6089   |
| n-Butane, nC4         | 4.6624   | 1.4792         | 9.1213   |
| Isopentane, iC5       | 1.1993   | 0.4414         | 2.9125   |
| n-Pentane, nC5        | 1.1050   | 0.4031         | 2.6835   |
| Hexanes Plus, C6+     | 1.5068   | 0.6617         | 4.7263   |
| Water, H2O            |          |                |          |
| Hydrogen Sulfide, H2S | 1.6164   |                | 1.8542   |
| Oxygen, O2            | 0.0000   |                | 0.0000   |
| Carbon Monoxide, CO   |          |                |          |
| Hydrogen, H2          |          |                |          |
| Helium, He            | 0.0000   |                | 0.0000   |
| Argon, Ar             |          |                |          |
| Totals                | 100.0001 | 11.4296        | 100.0000 |

| Property                      | Total Sample |
|-------------------------------|--------------|
| Pressure Base                 | 14.730       |
| Temperature Base              | 60.00        |
| Relative Density              | 1.0321       |
| HV, Dry @ Base P,T            | 1491.24      |

**Determination of Reporting Requirements**

Answer all questions that apply. The Reason(s) statements are calculated based on your answers and may provide additional guidance.

|                                                                                                                                                                                                                                                                                              |                                                   |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|
| Was or is this venting and/or flaring caused by an emergency or malfunction                                                                                                                                                                                                                  | Yes                                               |
| Did or will this venting and/or flaring last eight hours or more cumulatively within any 24-hour period from a single event                                                                                                                                                                  | Yes                                               |
| Is this considered a submission for a venting and/or flaring event                                                                                                                                                                                                                           | Yes, minor venting and/or flaring of natural gas. |
| An operator shall file a form C-141 instead of a form C-129 for a release that, includes liquid during venting and/or flaring that is or may be a major or minor release under 19.15.29.7 NMAC.                                                                                              |                                                   |
| Was there or will there be at least 50 MCF of natural gas vented and/or flared during this event                                                                                                                                                                                             | Yes                                               |
| Did this venting and/or flaring result in the release of ANY liquids (not fully and/or completely flared) that reached (or has a chance of reaching) the ground, a surface, a watercourse, or otherwise, with reasonable probability, endanger public health, the environment or fresh water | No                                                |
| Was the venting and/or flaring within an incorporated municipal boundary or withing 300 feet from an occupied permanent residence, school, hospital, institution or church in existence                                                                                                      | No                                                |

|                                                           |                 |
|-----------------------------------------------------------|-----------------|
| <b>Equipment Involved</b>                                 |                 |

| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report. |

**Venting or Flaring Resulting from Downstream Activity**

|                                                                            |               |
|----------------------------------------------------------------------------|---------------|
| Was or is this venting and/or flaring a result of downstream activity      | No            |
| Was notification of downstream activity received by you or your operator   | Not answered. |
| Downstream OGRID that should have notified you or your operator            | Not answered. |
| Date notified of downstream activity requiring this venting and/or flaring | Not answered. |
| Time notified of downstream activity requiring this venting and/or flaring | Not answered. |

**Steps and Actions to Prevent Waste**

|                                                                                                                                |                                                                              |
|--------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|
| For this event, the operator could not have reasonably anticipated the current event and it was beyond the operator's control. | True                                                                         |
| Please explain reason for why this event was beyond your operator's control                                                    | DCP MIDSTREAM EQUIPMENT FAILURE                                              |
| Steps taken to limit the duration and magnitude of venting and/or flaring                                                      | DURATION AND MAGNITUDE OUT OF OUR CONTROL DUE TO MIDSTREAM EQUIPMENT FAILURE |
| Corrective actions taken to eliminate the cause and reoccurrence of venting and/or flaring                                     | CAUSE AND REOCCURANCE OUT OF OUR CONTROL DUE TO MIDSTREAM EQUIPMENT FAILURE  |
