| Natural Gas Flared (Mcf) Details                                          | Cause: Midstream Emergency Maintenance   Producing Well   Natural Gas Flared   Released: 307 Mcf   Recovered: 0 Mcf   Lost: 307 Mcf |
| Other Released Details                                                    | Not answered.                                                                                                                       |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                                       |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                                          |

**Venting or Flaring Resulting from Downstream Activity**

|                                                                            |                                    |
|----------------------------------------------------------------------------|------------------------------------|
| Was or is this venting and/or flaring a result of downstream activity      | Yes                                |
| Was notification of downstream activity received by you or your operator   | No                                 |
| Downstream OGRID that should have notified you or your operator            | [237340] ENTERPRISE FIELD SERVICES |
| Date notified of downstream activity requiring this venting and/or flaring | Not answered.                      |
| Time notified of downstream activity requiring this venting and/or flaring | Not answered.                      |

**Steps and Actions to Prevent Waste**

|                                                                                                                                |                                 |
|--------------------------------------------------------------------------------------------------------------------------------|---------------------------------|
| For this event, the operator could not have reasonably anticipated the current event and it was beyond the operator's control. | True                            |
| Please explain reason for why this event was beyond your operator's control                                                    | Midstream Emergency Maintenance |
| Steps taken to limit the duration and magnitude of venting and/or flaring                                                      | N/A                             |
| Corrective actions taken to eliminate the cause and reoccurrence of venting and/or flaring                                     | Beyond Operators Control        |
