Additional details for Measured or Estimated Volume(s). Please specify	Not answered.
Is this a gas only submission (i.e. only significant Mcf values reported)	Yes, according to supplied volumes this appears to be a "gas only" report.

Venting or Flaring Resulting from Downstream Activity	
Was this vent or flare a result of downstream activity	No
Was notification of downstream activity received by this operator	Not answered.
Downstream OGRID that should have notified this operator	Not answered.
Date notified of downstream activity requiring this vent or flare	Not answered.
Time notified of downstream activity requiring this vent or flare	Not answered.

Steps and Actions to Prevent Waste	
For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	True
Please explain reason for why this event was beyond this operator's control	After repair of the line segment (as a result of corrosion), it was necessary to purge the line in order to put the line back in service.
Steps taken to limit the duration and magnitude of vent or flare	The line was purged as safely and efficiently as possible.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	Not applicable - the initial cause of the event was a result of corrosion of the line segment, which is a common industry occurrence.
