Was this a major release as defined by 19.15.29.7(A) NMAC?  ☐ Yes ☒ No  If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)?					
Initial Response					
The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury					
<ul> <li>☑ The source of the release has been stopped.</li> <li>☑ The impacted area has been secured to protect human health and the environment.</li> <li>☑ Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices.</li> <li>☑ All free liquids and recoverable materials have been removed and managed appropriately.</li> </ul>					
If all the actions described above have <u>not</u> been undertaken, explain why:					
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: FW: Maljamar South Spill Report 2.24.22

Good afternoon Camille,

Attached is the spill report. Also here is the spill calculation.

25' x 5" x 2.75 x .0154 = 5.29 barrels.

Alan
