Notice of Intent

Sundry ID: 2677774

Type of Submission: Notice of Intent

Date Sundry Submitted: 06/20/2022

Date proposed operation will begin: 06/18/2022

Type of Action: Flaring, Venting, Royalty Free Use

Time Sundry Submitted: 12:32

**Procedure Description:** Fasken Oil and Ranch, Ltd is requesting permission to flare due to gas plant maintenance. We have maximized the beneficial use of produced gas on site. Current daily production of oil is 625 mcfpd. Fasken Oil and Ranch, Ltd would like to request to flare from 06/01/2022 to 06/01/2023.

Surface Disturbance

Is any additional surface disturbance proposed?: No

| Incident Well     | Not answered.                   |
| Incident Facility | [fAPP2212445893] Paloma Battery |

**Determination of Reporting Requirements**

Answer all questions that apply. The Reason(s) statements are calculated based on your answers and may provide additional guidance.

|                                                                                                            |                                                   |
|------------------------------------------------------------------------------------------------------------|---------------------------------------------------|
| Was this vent or flare caused by an emergency or malfunction                                               | No                                                |
| Did this vent or flare last eight hours or more cumulatively within any 24-hour period from a single event | Yes                                               |
| Is this considered a submission for a vent or flare event                                                  | Yes, major venting and/or flaring of natural gas. |

An operator shall file a form C-141 instead of a form C-129 for a release that, includes liquid during venting and/or flaring that is or may be a major or minor release under 19.15.29.7 NMAC.

|                                                                                                                                                                                                                                                                                            |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Was there at least 50 MCF of natural gas vented and/or flared during this event                                                                                                                                                                                                            | Yes |
| Did this vent or flare result in the release of <b>ANY</b> liquids (not fully and/or completely flared) that reached (or has a chance of reaching) the ground, a surface, a watercourse, or otherwise, with reasonable probability, endanger public health, the environment or fresh water | No  |
| Was the vent or flare within an incorporated municipal boundary or withing 300 feet from an occupied permanent residence, school, hospital, institution or church in existence                                                                                                             | No  |

**Equipment Involved**

|                                                           |               |
|-----------------------------------------------------------|---------------|
| Primary Equipment Involved                                | Not answered. |
| Additional details for Equipment Involved. Please specify | Not answered. |

**Representative Compositional Analysis of Vented or Flared Natural Gas**

Please provide the mole percent for the percentage questions in this group.

|                                                              |    |
|--------------------------------------------------------------|----|
| Methane (CH4) percentage                                     | 70 |
| Nitrogen (N2) percentage, if greater than one percent        | 3  |
| Hydrogen Sulfide (H2S) PPM, rounded up                       | 0  |
| Carbon Dioxide (CO2) percentage, if greater than one percent | 0  |
| Oxygen (O2) percentage, if greater than one percent          | 0  |

If you are venting and/or flaring because of Pipeline Specification, please provide the required specifications for each gas.

|                                                     |               |
|-----------------------------------------------------|---------------|
| Methane (CH4) percentage quality requirement        | Not answered. |
| Nitrogen (N2) percentage quality requirement        | Not answered. |
| Hydrogen Sulfide (H2S) PPM quality requirement      | Not answered. |
| Carbon Dioxide (CO2) percentage quality requirement | Not answered. |
| Oxygen (O2) percentage quality requirement          | Not answered. |

QUESTIONS

| Date(s) and Time(s)                            |            |
|------------------------------------------------|------------|
| Date vent or flare was discovered or commenced | 06/18/2022 |
| Time vent or flare was discovered or commenced | 06:00 AM   |
| Time vent or flare was terminated              | 11:59 PM   |
| Cumulative hours during this event             | 24         |

| Measured or Estimated Volume of Vented or Flared Natural Gas              |                                                                                                                       |
|---------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Natural Gas Vented (Mcf) Details                                          | Not answered.                                                                                                         |
| Natural Gas Flared (Mcf) Details                                          | Cause: Repair and Maintenance   Gas Plant   Natural Gas Flared   Released: 582 Mcf   Recovered: 0 Mcf   Lost: 582 Mcf |
| Other Released Details                                                    | Not answered.                                                                                                         |
| Additional details for Measured or Estimated Volume(s). Please specify    | Not answered.                                                                                                         |
| Is this a gas only submission (i.e. only significant Mcf values reported) | Yes, according to supplied volumes this appears to be a "gas only" report.                                            |

| Venting or Flaring Resulting from Downstream Activity             |                              |
|-------------------------------------------------------------------|------------------------------|
| Was this vent or flare a result of downstream activity            | Yes                          |
| Was notification of downstream activity received by this operator | Yes                          |
| Downstream OGRID that should have notified this operator          | [275027] TARGA TRANSPORT LLC |
| Date notified of downstream activity requiring this vent or flare | 06/16/2022                   |
| Time notified of downstream activity requiring this vent or flare | 04:00 PM                     |

| Steps and Actions to Prevent Waste                                                                                               |                          |
|----------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True                     |
| Please explain reason for why this event was beyond this operator's control                                                      | Shut in for Targa outage |
| Steps taken to limit the duration and magnitude of vent or flare                                                                 | Assist Targa as needed   |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare                                                | Assist Targa as needed   |
