### Henryetta,

Please see below. This is the site we talked about when we meet with Becky and when I saw you the other day at NMOCD. This was sent to you previously and we had proposed 4 feet with a liner or 5 feet and Mike wanted one choice so the 4 foot with a liner is the choice selected. I have attached the plan again in case it makes it easier for you to review. Mike Bratcher has approved going 4 feet with a liner. This is the best and safest approach with lines in the area, etc. If you would please reply back with your approval, it would be greatly appreciated. My apologies for taking so long. It got buried on my desk under other things plus I forgot about it.

Thanks, Cliff

Mike,

Apologize for the tardiness of this reply.

We will go with a 4 foot excavation with the liner installed.

If you will reply back with your approval, it would be greatly appreciated.

Thanks, Cliff

Mike,

This e-mail is to confirm our discussion concerning the remediation plan for the COG Skelly 605 Battery release. I have attached the information packet that we used in our discussion with a cover page describing the remediation plan that we agreed upon.

If you would please reply via e-mail with your concurrence on this plan, it would be greatly appreciated.

Thanks, Cliff
