**Cause of Release:** On June 27, 2023, Enterprise had a release of natural gas and natural gas liquids from the State Com #3 pipeline. The pipeline was isolated, depressurized, locked and tagged out. No fire nor injuries occurred. Approximately one barrel of liquids were observed on the ground surface and flowed into a small ephemeral wash. Repairs and remediation have been completed. A third party corrective action report will be submitted with the "Final C-141."

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
