Initial Response  Ine responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury    The source of the release has been stopped.   The impacted area has been secured to protect human health and the environment.   Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices.   All free liquids and recoverable materials have been removed and managed appropriately.	Was this a major release as defined by 19.15.29.7(A) NMAC?  ☐ Yes ☐ No	If YES, for what reason(s) does the respon	sible party consider this a major release?
The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury  The source of the release has been stopped. The impacted area has been secured to protect human health and the environment. Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. All free liquids and recoverable materials have been removed and managed appropriately.  If all the actions described above have not been undertaken, explain why:  Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.  Thereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file vertain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, hand health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
