## **Closure Report**

Bobby Watts Federal SWD#1 Eddy County, New Mexico Incident # NAPP2331134890

## **Prepared For:**

San Mateo Water Management, LLC 5400 LJB Freeway, Suite 1500 Dallas, TX 7520

## **Prepared By:**

Talon/LPE 408 W. Texas Avenue Artesia, New Mexico 88210

November 30, 2023

| Site Characterization   |          |  |
|---|----------|--|
| What is the shallowest to groundwater beneth the area affected by the release in feet bgs   | 39.77 ft |  |
| What method was used to determine the depth to ground water   | Estimate |  |
| Did the release impact ground water   | No       |  |
| Distance to flowing watercourse or any other significant watercourse  | 0.61 mi  |  |
| Distance of any Lakebead, sinkhole, or playa lake   | 7.35 mi  |  |
| Distance of occupied residence, school, hospital, institution, or church  | 5.5 mi   |  |
| Distance of a spring or private domestic fresh water well used by less that five households for domestic or stock watering purposes POD | 0.14 mi  |  |
| Distance of any fresh water well or spring  | 0.14 mi  |  |
| Distance of Incorporated municipal boundries or a defined municipal fresh water field   | 5.5 mi   |  |
| Distance of Wetland   | 14.76 mi |  |
| Distance from a subsurface mine   | 7.1 mi   |  |
| Distance from (non-karst) unstable area   | 9.87 mi  |  |
| Categorize the risk of this well / site being in a karst geology  | High     |  |
| 100 year flooplain  | No       |  |
| Did the release impact areas not on an exploration, development, production, or storage site. (Pasture)                                 | No       |  |

## Closure

Based on this site characterization, remedial actions completed, and analytical results, we request that no further actions be required and that closure with regard to this incident be granted.

Should you have any questions or if further information is required, please do not hesitate to contact our office at 575-746-8768.

Respectfully submitted,

Chad Howb

Liner Integrity Certification Form

# Liner Integrity Certification

The following serves to verify that the affected liner has been inspected and found to be in serviceable condition in accordance with 19.15.29.11 A.(5)(a)(i-ii) of the New Mexico Administrative Code.

Facility ID:

N/A

Date:

11/10/23

Incident ID(s): NAPP2331134890

Responsible Party has visually inspected the liner.

☑ Liner remains intact and was able to contain the leak in question.

At least two business days' notice was given to the appropriate division district office before conducting the liner inspection.

☑ Photographs illustrating liner integrity are included.

## Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

| Closure Report Attachment Checklist: Each of the following items must be included in the closure report.   |  |  |
|--|--|--|
| A scaled site and sampling diagram as described in 19.15.29.11 NMAC  |  |  |
| Photographs of the remediated site prior to backfill or photomust be notified 2 days prior to liner inspection)  | s of the liner integrity if applicable (Note: appropriate OCD District office  |  |

| 5400 LBJ Freeway  | Action Number:  |  |
| Dallas, TX 75240  | 299424  |  |
|   | Action Type:  |  |
|   | [C-141] Remediation Closure Request C-141 (C-141-v-Closure)                       |  |
| QUESTIONS   |   |  |
| Nature and Volume of Release (continued)                                  |   |  |
| Is this a gas only submission (i.e. only significant Mcf values reported) | No, according to supplied volumes this does not appear to be a "gas only" report. |  |

Reasons why this would be considered a submission for a notification of a major release

From paragraph A. "Major release" determine using:
(1) an unauthorized release of a volume, excluding gases, of 25 barrels or more.

With the implementation of the 19.15.27 NMAC (05/25/2021), venting and/or flaring of natural gas (i.e. gas only) are to be submitted on the C-129 form.

Initial Response
The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury.
The source of the release has been stopped

True

The impacted area has been secured to protect human health and the

Yes

The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury.

The source of the release has been stopped

True

The impacted area has been secured to protect human health and the environment

Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices

All free liquids and recoverable materials have been removed and managed appropriately

If all the actions described above have not been undertaken, explain why

Not answered.

Per Paragraph (4) of Subsection B of 19.15.29.8 NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please prepare and attach a narrative of actions to date in the follow-up C-141 submission. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see Subparagraph (a) of Paragraph (5) of Subsection A of 19.15.29.11 NMAC), please prepare and attach all information needed for closure evaluation in the follow-up C-141 submission.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

#### QUESTIONS

| Site Characterization   |                                 |  |
|---|---------------------------------|--|
| Please answer all the questions in this group (only required when seeking remediation plan approval and beyond). This information must be provided to the appropriate district office no later than 90 days after the release discovery date. |                                 |  |
| What is the shallowest depth to groundwater beneath the area affected by the release in feet below ground surface (ft bgs)  | Between 26 and 50 (ft.)         |  |
| What method was used to determine the depth to ground water   | Estimate or Other               |  |
| Did this release impact groundwater or surface water  | No                              |  |
| What is the minimum distance, between the closest lateral extents of the release ar   | nd the following surface areas: |  |
| A continuously flowing watercourse or any other significant watercourse   | Between ½ and 1 (mi.)           |  |
| Any lakebed, sinkhole, or playa lake (measured from the ordinary high-water mark)   | Greater than 5 (mi.)            |  |
| An occupied permanent residence, school, hospital, institution, or church   | Greater than 5 (mi.)            |  |
| A spring or a private domestic fresh water well used by less than five households for domestic or stock watering purposes   | Between ½ and 1 (mi.)           |  |
| Any other fresh water well or spring  | Between ½ and 1 (mi.)           |  |
| Incorporated municipal boundaries or a defined municipal fresh water well field   | Greater than 5 (mi.)            |  |
| A wetland   | Greater than 5 (mi.)            |  |
| A subsurface mine   | Greater than 5 (mi.)            |  |
| An (non-karst) unstable area  | Greater than 5 (mi.)            |  |
| Categorize the risk of this well / site being in a karst geology  | High                            |  |
| A 100-year floodplain   | Between 1 and 5 (mi.)           |  |
| Did the release impact areas not on an exploration, development, production, or storage site  | No                              |  |

| Please answer all the questions that apply or are indicated. This information must be provided to the appropriate district office no later than 90 days after the release discovery date.   |  |  |
|---|--|--|
| Yes   |  |  |
| Attach a comprehensive report demonstrating the lateral and vertical extents of soil contamination associated with the release have been determined, pursuant to 19.15.29.11 NMAC and 19.15.29.13 NMAC.   |  |  |
| Yes   |  |  |
| Yes   |  |  |
| Per Subsection B of 19.15.29.11 NMAC unless the site characterization report includes completed efforts at remediation, the report must include a proposed remediation plan in accordance with 19.15.29.12 NMAC, which includes the anticipated timelines for beginning and completing the remediation. |  |  |

The OCD recognizes that proposed remediation measures may have to be minimally adjusted in accordance with the physical realities encountered during remediation. If the responsible party has any need to significantly deviate from the remediation plan proposed, then it should consult with the division to determine if another remediation plan submission is required.

|  | · ·   |  |

#### QUESTIONS

| Liner Inspection Information  |            |
|---|------------|
| Last liner inspection notification (C-141L) recorded  | 299392     |
| Liner inspection date pursuant to Subparagraph (a) of Paragraph (5) of Subsection A of 19.15.29.11 NMAC | 11/10/2023 |
| Was all the impacted materials removed from the liner   | Yes        |
| What was the liner inspection surface area in square feet   | 11508      |

| Remediation Closure Request  |     |
|--|-----|
| Only answer the questions in this group if seeking remediation closure for this release because all remediation steps have been completed. |     |
| Requesting a remediation closure approval with this submission   | Yes |
| Have the lateral and vertical extents of contamination been fully delineated   | Yes |
| Was this release entirely contained within a lined containment area  | Yes |
| What was the total surface area (in square feet) remediated  | 0   |
| What was the total volume (cubic yards) remediated   | 0   |
| Summarize any additional remediation activities not included by answers (above)  | N/A |

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (in .pdf format) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations. The responsible party acknowledges they must substantially restore, reclaim, and re-vegetate the impacted surface area to the conditions that existed prior to the release or their final land use in accordance with 19.15.29.13 NMAC including notification to the OCD when reclamation and re-vegetation are complete.

I hereby agree and sign off to the above statement
