- RE: Devon Energy \* State BW Com 1 \* 2RP-3379 \* DOR: 11/3/15

Mike and Crystal,

The excavation activities will be completed in the battery of the above referenced location this afternoon (1/20/2017). On Monday 1/23/2017 we would like to microblaze the open excavation.

I wasn't sure if you/or OCD Representative wanted to inspect the area before we treated it with microblaze.

- I sent the following message **Monday 16, 2017. We will be starting the remediation activities out at the State BW Com #1 30-015-23996 (2RP-3379) tomorrow 1/17/2016.** Since I didn't get a response I went ahead and started the remediation activities.

If you have any questions or concerns please feel free to contact me.

**Please respond ASAP if we need to hold off on microblazing the excavation until an OCD Representative can be available.**

Thank you.

RE: Devon Energy \* State BW Com 1 \* 2RP-3379 \* DOR: 11/3/15

Greetings all,

At this time, OCD will conditionally approve this proposal for remediation of the above referenced release. Due to the oil volume unrecovered, and elevated hydrocarbon levels, initial excavation and/or daylighting activities are to be coordinated with OCD so that an OCD representative can be onsite. OCD may require additional investigation and/or remedial actions, as may be warranted, as the project progresses.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
