| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True   |
| Please explain reason for why this event was beyond this operator's control  | The location experienced a malfunction that was not anticipated and the flaring can be attributed to high line pressure from our midstream provider. Due to this the inability for midstream to take gas, flaring was required |
| Steps taken to limit the duration and magnitude of vent or flare   | Standard PM. Worked with vendor to coordinate service time and minimize downtime.  |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare  | Standard PM. No way to avoid periodic downtime for maintenance/repairs to address unforeseen issues.   |
