| For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control. | True |
| Please explain reason for why this event was beyond this operator's control | High inlet pressure forcing station to flare for safety reasons. |
| Steps taken to limit the duration and magnitude of vent or flare | Resumed normal operations once pressures were safe to do so. |
| Corrective actions taken to eliminate the cause and reoccurrence of vent or flare | Resumed normal operations once pressures were safe to do so. High pressures result in flaring for safety reasons. Recurrence likely when pressures are high. |
