Subject: Spill and Cleanup on J2 Report

Good afternoon Mike,

On Sunday, November 16, 2025, I received a call from one of my drivers to notify me of an incident causing a spill (mud cittings) on J2 road. My management team responded shortly after the call to assist in containment and cleanup of all materials that were spilt. The incident occurred at 32.016301,-103.584925 approximately around 10:30 p.m. Attached above are pictures of the spill before and after the cleanup was done. I am still waiting on the manifest to verify the total quantity of bbls/yds but will forward as soon as manifest is received. If any other information is needed, please feel free to let me know. Thank you.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
