For this event, this operator could not have reasonably anticipated the current event and it was beyond this operator's control.	<b>True</b>
Please explain reason for why this event was beyond this operator's control	The pipeline had to be blown down to due high O2 in the line which can cause damage and corrosion. Corrosion is a common occurrence in the industry but cannot be predicted.
Steps taken to limit the duration and magnitude of vent or flare	Pipeline was shut-in and blowdown as efficient and effective as possible to limit the duration and magnitude of the vent and to ensure public and worker safety.
Corrective actions taken to eliminate the cause and reoccurrence of vent or flare	Pipeline will be repaired before putting back into service.
