13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

LOGOS plans to submit a few more APDs on previously approved pads to drill and complete in the Rosa Area. Although the APDs are approaching the 4 year limit, we need a few more months just in case the APDs aren't approved by June 2021.

Therefore, LOGOS is requesting an additional 4 months extension (only) to drill, secure water infrastructure and to acquire water on location for stimulation.

Expires 10/16/2021

14. I hereby certify that the foregoing is true and correct.
