13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMOC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

01/12/2021-Chisholm Energy Operating respectfully requests to rescind the PA paperwork that was filed for the Montura Fed Com 2, and requests to TA the well again after discovering perforations that were not reported to the NMOC by the previous operator.

-On 09/13/2019 Chisholm Energy Operating, LLC Temporarily Abandoned well by setting a CIBP @ 11500' MD and Dump bailed 35 sxs cmnt on top of CIBP based on perforations that were reported to NMOC. In October 2019 this well failed the MIT and it was determined we would PA the wellbore. After some review, it was discovered that on 01/30/2008 the well was perforated @ 11410'-11422' and those perforations were never reported to the NMOC. These perforations are clearly above the previous TA thus being the cause of the failed MIT.

-Chisholm Energy Operating, LLC respectfully requests to TA the Montura Fed Com 2

Procedure: RU Wireline and set CIBP @ 11360'

Dump Bail 35' of CMNT on top of CIBP w/PBTD @ approx 11325' - WOC & tag

Give NMOC Dist. 2 office 48 Hour NOI of Pressure Test

Pressure Test CSG for 30 min w/ less than 10% Pressure Drop

TA status may be granted after a successful MIT test is performed. Contact the OCD to schedule the test so it may be witnessed.
