13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Read & Stevens, Inc. is requesting a "6 month shut in status" on the North Lea 10 Federal #1H well that was spud on January 23, 2020. The drilling was completed on February 14, 2020.

Due to the current state of the commodities pricing and the Covid-19 virus it is not economical to complete the well at this time. As soon as the commodities pricing reaches a level that is economically feasible and the threat of the virus is under control, we will start the completion phase of the well.

14. I hereby certify that the foregoing is true and correct.
