13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

OXY USA INC requests approval to add a pool for the Oxbow CC "17\_8" Federal Com #36H. This well is currently on PLC 750-C. This well has been drilled as a Wolfcamp well and will be re-entered to drill a multi-lateral (also known as SL2). The new lateral will be completed in the Bone Spring, so the C-102 provided shows the correct Bone Spring pools. The pools are included in the currently approved pools of PIERCE CROSSING; BONESPRING, EAST and PIERCE CROSSING; BONE SPRING and CEDAR CANYON BS and currently approved proposed consolidated leases (CA BS 20-29 E2 T24S R29E) in PLC 750-C.

The facilities described in PLC 750C are unchanged – each facility has a sales-quality orifice meter (BLM gas FMP or equivalent meter) that continuously measures gas volume before it leaves the facility. Any commingling of wells upstream of these meters has been approved according to the Commingle Orders for each individual facility.

This request is for gas production only. Oil production will be handled through an amendment to PLC-661-B for Salt Flat Battery Train #4 (C-20-24S-29E).
