Procedure Description:

The BLM requested that EOG terminate the Pitchblende Exploratory Unit located in the W2SE of Sec. 35-25S-34E due to its size limiting future development. After reviewing the unit (80 acres) and future plans for the prospect called Onyx, EOG agreed and submitted a unit termination letter. It was approved, please reference attached approved letter. Production needs to be changed from a unit basis to a lease basis.

Production was reported to the unit/participating area: NMNM 111795X / NMNM 111795A. Production now needs to be reported to NMNM 92200 effective 7/1/2022. Lease number is 0085713/000.

The name of the well needs to be changed from "Pitchblende Federal Unit #2" to "Pitchblende Federal #2" (word unit removed)

Voluntary Unit Termination

EOG Resources, Inc.
Attn: Laci Stretcher
P.O. Box 2267
Midland, TX 79702

Re: **Termination of Pitchblende Federal Exploratory Unit (NMNM111795X)**

Gentlemen:

Your request for voluntary termination of the Pitchblende Federal Exploratory Unit (NMNM111795X) Unit Agreement, Lea County, New Mexico, is hereby approved, effective July 1, 2022, pursuant to the Section 20 (d) requiring 75% working interest owners' signatures. The termination of the Unit would protect the public interest, prevent waste, and allow for future development of the Lease.

The Authorize Officer concurs and acknowledges that advancements in modern horizontal drilling requires a larger amount of acreage than the 80 acres currently covered by the Unit boundaries. As demonstrated in your Exhibit "C", nearby horizontal wells contain spacing units larger than 80 acres. EOG plans on drilling additional wells on the Lease, and the Unit would restrict development into the Bone Spring and Wolfcamp formations. You have fulfilled the Public Interest Requirement as defined in 43 CFR 3183.4(b).

This will effectively terminate the associated participating area (PA) (NMNM111795A) effective July 1, 2022. The existing producing well will report their production to the lease effective July 1, 2022. EOG shall submit a sundry to the Carlsbad Field Office to drop "Unit" from the well name.

Copies of this letter are being distributed to the appropriate Federal agencies. It is requested that you furnish notice of this termination to each interested owner, lessee, and lessor.

The following Federal lease committed to a unit shall continue in effect for the original term of the lease or for 2 years after the termination of the unit agreement, whichever is longer, pursuant to 43 CFR 3107.4.

INTERIOR REGION 5 · MISSOURI BASIN
Kansas, Most of Montana, North Dakota,
Nebraska, South Dakota

INTERIOR REGION 6 · ARKANSAS-
RIO GRANDE-TEXAS GULF
Oklahoma, Texas

INTERIOR REGION 7 · UPPER
COLORADO BASIN
Colorado, New Mexico, Utah, Wyoming

Federal Leases	Status
NMNM092200	HBP

This termination satisfies all 2022 Plan of Development (POD) requirements and hereby approves your submitted POD dated February 21, 2022. Should you have any questions, please contact Edward G Fernandez, Petroleum Engineer, at efernand@blm.gov.

Sincerely,

**KYLE

RE: Request for Termination of Pitchblende Federal Exploratory Unit
NMNM 111795X
Lease NMNM 92200
W2SE4 of Sec. 35-25S-34E
Lea County, New Mexico
EOG Lease No: 0085713/000

Dear Mr. Paradis:

EOG Resources, Inc. ("EOG") is the operator and 100% operating rights owner for the captioned Pitchblende Federal Exploratory Unit (the "Unit") located in the W/2SE/4 of Section 35, Township 25 South, Range 34 East, Lea County, New Mexico. A copy of the serial register page for the Unit is attached as Exhibit "A."

Devon Energy Co. LP is the lessee of record on federal lease NMNM 92200 (the "Lease"), the only Lease included in the Unit. A copy of the serial register page for the Unit is attached as Exhibit "B." The size of the Unit (80 acres) restricts horizontal development; as a result, EOG hereby requests voluntary termination of the Unit.

Advancements in modern horizontal drilling require a larger amount of acreage than the 80 acres currently covered by the Unit boundaries. As demonstrated in the area map attached as Exhibit "C", nearby horizontal wells contain spacing units larger than 80 acres. EOG plans on drilling additional wells on the Lease, and the Unit would restrict development into the Bone Spring and Wolfcamp formations.

The termination of the Unit would protect the public interest, prevent waste, and allow for future development of the Lease. EOG requests that the Bureau of Land Management terminate the Unit (NMNM 111795X) effective July 1, 2022, pursuant to 43 C.F.R 3183.4

in the public interest and for conservation of natural resources. This will effectively terminate the existing PA (NMNM 111795A). The existing well, Pitchblende Federal Unit #2, will continue operations on a lease basis once the unit is terminated. A communitization agreement is not necessary because only one lease covers the applicable tracts.

It is our understanding from previous conversations with the BLM that Unit termination does not create a Lease segregation or otherwise create a development requirement. The Lease will remain held by the existing, producing well (Pitchblende Federal Unit #2) and upcoming Stranger 34 Fed Com wells currently being drilled by Devon Energy Production Company, L.P. If that is not the case, please reach out to me immediately. Please also note that this request will satisfy the 2022 Plan of Development requirements.

If you have any questions, please call the undersigned at 432-227-3769 or by sending email to laci_stretcher@eogresources.com.

Sincerely,

EOG Resources, Inc. (Unit Operator, 100% Operating Rights Owner)
