Subject: RE: [EXTERNAL] Submission ID 273554 - Taco Truck Federal SWD #001 - API # 30-015-53310 - Black River Water Management Company, LLC
Date: Thursday, October 19, 2023 3:06:30 PM

Good afternoon Mr. McClure,

I confirmed the data below:

- The top of the 7-5/8" liner is at 9,574'.
- we circulated 104 sacks of cement to surface, so that cell should read circulated, not calculated.

Let me know if you need anything else.

Best Regards,
Brett

****EXTERNAL EMAIL****

Brett,

For the well referenced in the subject of this email, where was the top of the 7-5/8 liner set at?

For the 9-5/8 casing you have the top of cement listed as being at surface with a number of sacks circulated to surface, but the method used to determine the TOC is listed as calculated. Is that correct?
