Hilcorp Energy would like to revise the proposed perforation ranges for the Mesaverde and Dakota for approved DHC-5461. The revised perforation ranges below match the C-104 Test Allowable ranges.

Proposed perforations are: ~MV 4,400' - 5,167'; ~DK 6,916' - 7,197'. These perforations are in TVD.

Ward,

Thanks for taking my call. I believe you already received this email/info but I wanted to make sure of it. Our frac date is scheduled for 3/14/25, so if you could please get an answer for us this afternoon, it would be greatly appreciated. Please don't hesitate to reach out with any questions or concerns.

Thanks,

Tyler Portwood

Subject: Request Permission to Perforate - Haynie 2N - API 3004538408

Good morning,

Please see the attached RBL for the Haynie 2N (API #3004538408). We have passed the state witnessed MIT and would like to request permission to perforate the Dakota interval (6,916'-7,197') as well as the Mesaverde interval (4,400'-5,167'). The RBL shows to have sufficient cement coverage for these intervals. Please let me know if you need me to provide any additional information.

Thanks,

Tyler Portwood
