Thomas,

As discussed, based on the CBL showing TOC at 1,720', we will make the following changes:

- We will split out the Fruitland, Kirtland, Ojo plug into 2 plugs.
 - o Fruitland plug will be its own inside plug.
 - Kirtland/Ojo plug will be a combined outside/inside plug.
- See attached updated procedure for volumes/depths.

Let me know if you have any questions or concerns

Thanks,

Joe Zimmerman
