Procedure Description: Caza Operating LLC plans to drill these wells in Q1 2025. More time is needed to evaluate the results from proximate active drilling activities and/or recently completed wells, which may result in the operator drilling fewer wells and thus decreased surface disturbance. We just completed 7 wells (Fall 2023) in the 960 acre drilling unit (1.5 mile laterals). We needed to evaluate results prior to drilling additional wells in each reservoir bench.
