CONDITIONS

Created By	Condition	Condition Date
loren.diede	Notify the OCD inspection supervisor via email 24 hours prior to beginning Plug & Abandon (P&A) operations.	11/17/2025
loren.diede	Given the lack of well information NMOCD approves this P&A NOI provided that once the casing size and depth is determined the well is plugged as per the proposed plugging procedure and that: 1. NMOCD does not consider this well to be within the LPCH restricted area and an above ground P&A marker is required. 2. NMOCD requires that plug(s) be added to cover the 7 Rivers and Yates formation tops as determined based on off-set wells or from the CBL. 3. Submit photo and GPS coordinates of the P&A marker with the final P&A reports. 4. The API# on the marker is to be clearly legible. Run CBL from CIBP to surface. Submit the CBL tif file to NMOCD for uploading into the Well Log File.	11/17/2025
