Chaves County, New Mexico

Pool	DIAMOND MOUND; STRAWN (Gas)	Gas	(96984)
Names:	DIAMOND MOUND; UPPER PENN. (Gas)	Gas	(97223)

Reference is made to your recent application for an exception to Division Rule 19.15.12.9A. NMAC of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appears that the subject well qualifies for approval for such exception pursuant to the provisions of Division Rule 19.15.12.11A. NMAC, and since reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division Rule 19.15.12.11A. (6) NMAC, the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

The assignment of allowable and allocation for the pools being commingled is based on well-log analysis.

Assignment of allowable and allocation of production from the well shall be as follows:

DIAMOND MOUND; UPPER PENN. (G) Pool	Pct Oil: 98	Pct Gas: 98
DIAMOND MOUND; STRAWN (G) Pool	Pct Oil: 2	Pct Gas: 2
