Hand Delivered

Michael E. Stogner
Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Dear Mr. Stogner:

Pursuant to Division Rule 104.F(2), Devon Energy Production Company, L.P. ("Devon") applies for administrative approval of unorthodox oil well location for the following well:

<u>Well:</u>	Eagle 35A Federal Well No. 19
<u>Location:</u>	1150 feet FNL & 960 feet FEL
<u>Well Unit:</u>	NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, Township 17 South, Range 27 East, N.M.P.M., Eddy County, New Mexico

The well will be drilled to test the Glorieta/Yeso formations (Northeast Red Lake Glorieta-Yeso Pool), which is developed on statewide rules. The APD for the well, with a Form C-102, is attached as Exhibit A.

The application is based on engineering and topographic reasons. Attached as Exhibit B is a well plat of Glorieta-Yeso wells drilled or being drilled by Devon in Sections 34 and 35, Township 17 South, Range 27 East, N.M.P.M., and Sections 2 and 3, Township 17 South, Range 27 East, N.M.P.M.. Devon has an ongoing program to develop the Glorieta-Yeso by drilling two wells in each quarter-quarter section, in a northeast-southwest pattern. Wells are being placed in the northeast and southwest corners of each well unit to equalize the distance between the wells.

Devon planned to place the well at an orthodox location 990 feet FNL & FEL of Section 35, but the existing McQuadrangle, LC South Red Lake Unit Well No. 44 is at that location, requiring the well to be moved south of an orthodox location.

Attached as Exhibit C is a land plat, highlighting the well unit. The ~~E1/4NE1/4~~ of Section 35 is covered by United States Lease LC 050158. Therefore, the well only encroaches on the same lease, and there are no adversely affected interest owners to notify.

Please call me if you need any further information on this matter.

Very truly yours,

A handwritten signature in cursive script, appearing to read "James Bruce".

James Bruce

Additional Operator Remarks:

Devon Energy Production Company, LP proposes to drill a San Andres, Glorieta Yeso well per the approved Master Drilling and Surface Use Plan for the Red Lake Field Area to 4000' TD for commercial quantities of oil and gas. If the well is deemed noncommercial the well bore will be plugged and abandoned per Federal regulations.

Directions: From the junction of US Hwy 82 and Co. Rd. 204, go south 0.1 mile to Co. Rd. 225; thence south on 225 for approx. 1.0 mile to a point on the northwest corner of the proposed well pad.
