**RE: Administrative Non-Standard Location Application Request
Wishbone Federal Com. #1
API #: 30-015-30640
Wildcat Strawn (Gas)
Eddy County, New Mexico**

Mr. Catanach,

The Wishbone Federal Com. #1 well was initially completed as a Morrow producer on 09/28/00 in the Turkey Track Morrow (Gas) Pool. The well is no longer commercial in the Morrow formation and has been recompleted as a Wildcat Strawn gas producer. As per current OCD rules, the well falls under the category of a non-standard location due to being 20' to close to outer boundary of the quarter section to the north. Attached for your review is the location plat (C-102) reflecting the referenced location. As depicted on the plat, the north quarter section line of the well location is located within the 320 acre spacing unit; therefore Chisos as operator is the only affected party.

In addition, I have also attached a letter from the BLM amending the Communitization Agreement No. NMNM105316 to include the Atoka and Strawn formations effective February 4, 2004.

Chisos, Ltd. respectfully requests administrative approval for the non-standard location of the Wishbone Federal Com. #1. Should you have any questions or need additional information, please contact the undersigned at (432) 570-6009.

Sincerely,

Delta P Petroleum Services

Dear Ms. Craddock:

Your letter of July 15, 2004, requests that Communitization Agreement No. NMNM105316 which embraces Lots 3 - 7, SE1/4NW1/4, E1/2SW1/4 (W1/2) sec. 6, T. 19 S., R. 30 E., Eddy County, New Mexico, be amended to include the Atoka and Strawn formations.

Inasmuch as the agreement only covers the Morrow formation, we hereby amend Communitization Agreement No. NMNM105316 to include the Atoka and Strawn formations effective as of February 4, 2004, the date of first production from the Atoka formation.

The agreement remains in force and effect as of the original approval date September 19, 2000. Please furnish all interested principals with appropriate evidence of this amendment.

Sincerely,

Mary Lou Ormseth
