RE: Application for Administrative Approval of Unorthodox Location
Cross Timbers Operating Company's Aztec Com 4 #1 Well
2,045' FWL and 2,370' FNL (SE/4 NW/4)
Unit F, Section 16, T30N-R11W
San Juan County, New Mexico
Basin Dakota Formation

Dear Mr. Stogner:

Cross Timbers Operating Company hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Ownership map
3. List of Offset Owners

The above captioned well will be proposed to test the Basin Dakota Formation. The well spacing would be a W/2 Unit consisting of approximately 320 acres. The rules state that the well should not be closer than 790' to any quarter section line, nor closer than 130' to any quarter-quarter section line. The well is unorthodox because it will not conform to the current footage requirements at the proposed location. It is necessary to drill the well in an unorthodox location due to the surface topography.

By certified mail, a copy of this application and request for administrative approval has been sent to all of the Basin Dakota formation working interest owners and offset operators listed on the attached list.

Cross Timbers would like to request your Administration Approval for the unorthodox location based on the above information. Should you need any additional information please feel free to contact me at (817) 885-2454.

Sincerely,
CROSS TIMBERS OPERATING COMPANY
