Application for Non-Standard Well Location
Blanco LS Well No. 12A API # 30-045-26542
NW/4 Section 36-T28N-R08W
Otero Chacra Pool
San Juan County, New Mexico

BP America Production Company respectfully requests an administrative approval for a non-standard well location for the Blanco LS Well No. 12A to be recompleted into the Otero Chacra Pool. The subject well was drilled by Tenneco Oil Company in 1985 at a non-standard well location for the Blanco Mesaverde Pool: Administrative Order NSL – 2138, dated September 10, 1985.

It is our intent to complete the well into the Otero Chacra Pool and downhole commingle production with the existing Mesaverde Pool. Application for permission to downhole commingle production is being submitted to the Aztec District Office.

The spacing unit for this well is the NW/4 Section 36 as shown on attached C-102. Also attached is a copy of Tenneco's application and approval for the original NSL exception.

BP America has a 100% working interest in both the NW/4 of Section 36 and the SW/4 of Section 25, the affected offset tract.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in cursive script that reads "Mary Corley".

Attention: Scott McKinney

Administrative Order NSL-2138

Gentlemen:

Reference is made to your application for a non-standard location for your Blanco LS 12A well to be located 610 feet from the North line and 920 feet from the West line of Section 36, Township 28 North, Range 8 West, NMPM, Blanco Mesaverde Pool, San Juan County, New Mexico. The N/2 of said Section 36 shall be dedicated to the well.

By authority granted me under the provisions of Rule 104 F(I), the above-described unorthodox location is hereby approved.

Sincerely,

R. L. STAMETS, DIRECTOR

Gentlemen:

Attached in duplicate (to each office) are a well location plat (C-102) with an ownership plat for the above referenced well.

Due to the proposed well being moved twice to avoid an archaeological site and a pipeline to the south, this location does not meet state spacing requirements. This is the only geologic and topographic site acceptable.

Pursuant to the authority of Rule 104-F, we respectfully request your approval of an exemption to the standard well location requirements.

Very truly yours,

TENNECO OIL COMPANY
