Administrative Order No. DHC-677

Chevron USA, Inc.
P.O. Box 670
Hobbs, NM 88240

Attention: R. C. Anderson

Re: Lea "ACL" State No. 1
Unit B, Section 36, Township 22 South,
Range 37 East, NMPM, Lea County, New Mexico
South Brunson Abo and Blinebry Oil and Gas Pools

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 50 barrels per day, and total water production from the well shall not exceed 100 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2000 by the top unit allowable for the South Brunson Abo Pool.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Blinebry Pool: Oil 48%, Gas 15%
Abo Pool: Oil 52%, Gas 85%

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours

A handwritten signature in black ink, appearing to read 'William J. LeMay', is written over the typed name. The signature is fluid and cursive, with a long vertical line extending downwards from the end of the name.

WILLIAM J. LeMAY,
Director
