RE: Administrative approval of Unorthodox Location
Archunde 29-10-24 #1S
505' FNL & 1445' FWL
Section 24, T29N, R10W
San Juan County, New Mexico

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its proposed Archunde 29-10-24 #1S Fruitland Coal well under the provisions of New Mexico Oil Conservation Division (NMOCD) order R-8768.

This well is located 505' fnl & 1445' fwl of Section 24-T29N-R10W, San Juan County, New Mexico and dedicated to a spacing unit consisting of the N/2 of said section 24, in the Basin Fruitland Coal gas pool.

This well is closer than 660 feet to the northern boundary of the proration unit, causing an unorthodox location. This location was moved to its current unorthodox location at the request of the Bureau of Land Management, as per the attached letter.

A copy of this application is being sent to all affected owners by certified mail-return receipt request with a request that they furnish your office in Santa Fe a Waiver of Objection within twenty (20) days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C-102), a plat showing the offsetting spacing units and Fruitland Coal wells, if any, and a topographic map.

Your favorable consideration of this request would be appreciated.

Sincerely,

James C. Sullins
District Landman

Dear Sir:

The Farmington Field Office is developing an APD for Energen Resources which requires your authorization. The "on-site" conducted by Bill Liess of our office for the Archunde 29-10-24 #1S indicates a need to move this location from that originally submitted which was in proximity to US 64 and some residences to a more benign location at 505' FNL / 1445' FWL in sec 24, T29N, R10W.

This location is to be twinned on an existing well on a bluff which we feel would be a more amicable location. If there are any questions please call Bill Liess at 505-599-6321.

Sincerely,

Ray Sanchez
EP/ ROW Branch Chief
