RE: Surface Commingle leases

To Whom It May Concern:

Mewbourne Oil Co is requesting permission to surface commingle the following wells

Three Palms "36" State Com # 1H (API # 30-015-37860)
Three Palms "36" State Com # 2H (API # 30-015-38422)

Mewbourne Oil Co request permission to produce both these wells to an existing tank battery on the Three Palms "36" State Com # 1H. The state royalty in both wells is the same, however the application is required due to different working interest & overriding royalty interest.

The reason for which Mewbourne Oil Co is requesting this is to save approximately \$100,000 in additional facilities cost as well as additional surface disturbances. Mewbourne Oil Co will allocate production using meters.

- ✓ Form C107B
- ✓ Site diagram of production facility with pictures
- ✓ Explanation of testing procedure
- ✓ Form C-102 for both wells
- ✓ Map showing entire section and corresponding leases
- ✓ Administrative Application Checklist
- ✓ List of all involved parties
- ✓ Copy of letter that was sent certified mail to all involved parties informing them of proposed off lease measurement.

Mewbourne Oil Company would appreciate this commingle request being processed as soon as possible. If you need further information, please call me at (575) 390-4816.

Thank you,

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Mewbourne Oil Company

OPERATOR ADDRESS: PO Box 5270, Hobbs, NM 88241

APPLICATION TYPE:

☐ Pool Commingling ☒ Lease Commingling ☐ Pool and Lease Commingling ☐ Off-Lease Storage and Measurement (Only if not Surface Commingling)

LEASE TYPE: ☐ Fee ☒ State ☐ Federal

Is this an Amendment to existing Order? ☐ Yes ☒ No If "Yes", please include the appropriate Order No _____

Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling ☒ Yes ☐ No
Fee surface & minerals

(A) POOL COMMINGLING
Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes

(2) Are any wells producing at top allowables? ☐ Yes ☐ No

(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No

(4) Measurement type ☐ Metering ☐ Other (Specify)

(5) Will commingling decrease the value of production? ☐ Yes ☐ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING

Please attach sheets with the following information

(1) Pool Name and Code. Parkway Bone Springs 49622

(2) Is all production from same source of supply? ☒ Yes ☐ No

(3) Has all interest owners been notified by certified mail of the proposed commingling? ☒ Yes ☐ No

(4) Measurement type. ☒ Metering ☐ Other (Specify)

(C) POOL and LEASE COMMINGLING

Please attach sheets with the following information

(1) Complete Sections A and E

(D) OFF-LEASE STORAGE and MEASUREMENT

Please attached sheets with the following information

(1) Is all production from same source of supply? ☐ Yes ☐ No

(2) Include proof of notice to all interest owners

(E) ADDITIONAL INFORMATION (for all application types)

Please attach sheets with the following information

(1) A schematic diagram of facility, including legal location

(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved

(3) Lease Names, Lease and Well Numbers, and API Numbers

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

MEWBOURNE OIL COMPANY

Metering Procedure

Each well will have its own 3 phase separator. Since each well will have its own 3 phase separator all wells will be metered separately daily.

The 3 phase separator will be equipped with meters on all 3 phases. The gas phase will have a Total Flow EFM 6213. The water phase will have a turbine meter. The oil phase will have a turbine meter. The oil meter will be checked monthly to ensure turbine meter accuracy. The process by which the oil meter will be checked is by proving it to an isolated tank and calibrating it to that test.

The allocation process would be the same as if the wells were on well test. The only difference is all wells or leases in the common battery would have well test everyday. At the end of month each well would be allocated a percentage of battery oil, water, and gas based on its individual metered numbers.

Gentlemen:

Mewbourne Oil Company (Mewbourne) is preparing to file an application with the New Mexico Oil Conservation Division (NMOCD) seeking authorization to surface commingle production from the Three Palms "36" State COM #2-H well located in the S/2N/2 of Section 36, T-19-S, R-29-E with production from the Three Palms "36" State COM #1-H well located in the N/2N/2 of Section 36, T-19-S, R-29-E. All production from both wells will be run through and sold from the Three Palms "36" St. COM #1-H Tank Battery located in the NE/4NE/4 of said Section 36. Production from the #2-H well will be run through a new three phase separation vessel to be installed at the #1-H Tank Battery as reflected on the attached plat to facilitate accurate metering and allocation of production to each well.

If you object to this application, you must notify the NMOCD in writing no later than 20 days from the date the NMOCD receives Mewbourne's surface commingling application.

Feel free to contact me if you have any questions or would like to discuss this in greater detail. I can be reached by phone at (432) 682-3715 or via email at ssmith@mewbourne.com.

Sincerely,

MEWBOURNE OIL COMPANY

Re: Application for Surface Commingling
Three Palms "36" State COM #1-H Well
N/2N/2 Section 36, T-19-S, R-29-E
Three Palms "36" State COM #2-H Well
S/2S/2 Section 36, T-19-S, R-29-E
Eddy County, New Mexico
Three Palms Prospect

Ladies and Gentlemen:

Mewbourne Oil Company (Mewbourne) is preparing to file an application with the New Mexico Oil Conservation Division (NMOCD) seeking authorization to surface commingle production from the Three Palms "36" State COM #2-H well located in the S/2N/2 of Section 36, T-19-S, R-29-E with production from the Three Palms "36" State COM #1-H well located in the N/2N/2 of Section 36, T-19-S, R-29-E. All production from both wells will be run through and sold from the Three Palms "36" St. COM #1-H Tank Battery located in the NE/4NE/4 of said Section 36. Production from the #2-H well will be run through a new three phase separation vessel to be installed at the #1-H Tank Battery as reflected on the attached plat to facilitate accurate metering and allocation of production to each well.

If you object to this application, you must notify the NMOCD in writing no later than 20 days from the date the NMOCD receives Mewbourne's surface commingling application.

Feel free to contact me if you have any questions or would like to discuss this in greater detail. I can be reached by phone at (432) 682-3715 or via email at ssmith@mewbourne.com.

Sincerely,

MEWBOURNE OIL COMPANY

Steven J. Smith
