**RE: Annual Monitoring Report (2011) for the Plains Marketing's  
Darr Angell #4 Release Site (AP-007)  
Unit B, Section 11 & Unit O, Section 2, T15S, R37E, NMPM, Lea County, New Mexico  
Recommendations Amendment Approval**

Dear Mr. Henry:

Per our telephone conversation, the New Mexico Oil Conservation Division (OCD) hereby conditionally approves the amendment to the Recommendations for the Darr Angell #4 Release Site:

- Plains must increase the sampling frequency from annually to at least semi-annually for MW-11 [in lieu of MW-12 (which is now dry)];

Please be advised that OCD approval of this amendment does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.
