**Subject:** Corrective Action Plan (1R425-65) Approval - ROC Vacuum G-28 Vent Site

**RE: ICP Report and Corrective Action Plan (CAP) for the Rice Operating Company's  
Vacuum G-28 Vent Site  
Unit Letter G, Section 28, T17S, R35E, NMPM, Lea County, New Mexico  
Corrective Action Plan (1R425-65) Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the ICP Report and Corrective Action Plan for the Vacuum G-28 Vent Site, dated October 22, 2013, and has conducted a review of the Plan. The Plan indicates that Rice Operating Company (ROC) has met the requirements of 19.15.29 NMAC (Rule 29; formerly, Rule 116) for a remediation plan. Therefore, the OCD hereby conditionally approves the Corrective Action Plan as proposed for above-referenced site in accordance with 19.15.29 NMAC:

ROC must submit to the OCD a report of the corrective actions within 270 days.

Please be advised that OCD approval of this plan does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen
