Re: Application for Unorthodox and
Nonstandard Well Location
High Calling 1821-15 State No. 1
Section 15-18S-21E, NMPM
Eddy County, New Mexico

Gentlemen:

Parallel Petroleum LLC ("Parallel") is applying for a Nonstandard Location ("NSL") for the High Calling 1821-15 State No. 1 Well to be located in Section 15-18S-21E, NMPM, Eddy County, New Mexico, being 330 Feet FWL and 1260 Feet FSL.

The well will be situated on the New Mexico State Land Office premises under Lease Serial No. VO-8840, which encompasses the South-Half (S/2) of said Section 15. Offsetting lands with descriptions and Lessee/operators are attached to this letter for your reference, as well as our notification to them of our application.

Parallel has determined the NSL based on seismic acquisition and data interpretation conducted over the last several years. The interpretations of the data have shown the high probability of hydrocarbons being developed in a localized anomaly found in this specific optimal location of the proposed well. With the interpretation of the above mentioned seismic, we intend to drill a wildcat well to penetrate into the Silurian seismic marker and TD at a depth of approximately 9000 Feet.

We appreciate your review of our request. If there are any questions or comments regarding this, please do not hesitate to contact our office.

Very truly yours,

Dennis J. Hopkins, CPL

Good Afternoon, Mr. Petersen

I have before me the referenced application, which we received on October 16.

For notice purposes, we are concerned only with the adjacent unit in the S/2 of Section 16 since that is the only unit towards which your proposed location encroaches. Since, according to your application, the operator of the S/2 of Section 16 is an affiliate of the applicant, we need you to advise us if that operator owns 100% of the working interest in that unit. If so, no notice would be required. If there are any other working interest owners in that adjacent unit, they would have to be noticed separately.

We will await your response.

Sincerely
