Re: Application for Unorthodox Well Location
Ursa "27" Federal Com No. 1H
API No. (30-015-39581)
Surface Location: 147' FSL & 223' FWL (Unit M)
First Take Point: 199' FSL & 694' FWL (Unit M)
BHL: 660' FSL & 330' FEL (Unit P)
All in Section 27, T-18 South, R-30 East, NMPM,
Eddy County, New Mexico

Dear Ms. Bailey:

Pursuant to Division Rule 19.15.15.13, Mewbourne Oil Company ("Mewbourne") respectfully requests administrative approval of an unorthodox oil well location for its proposed Ursa "27" Federal Com Well No. 1H. This well will be drilled as a horizontal development oil well in the South Leo-Bone Spring Pool (37920).

The Ursa "27" Federal Com Well No. 1H will be dedicated to a 160-acre spacing and proration unit ("project area") comprising the S/2 S/2 of Section 27. There are currently no other wells producing from the Bone Spring formation within the proposed project area.

The South Leo-Bone Spring Pool is currently governed by Division Rule 19.15.15.9 which requires standard 40-acre spacing and proration units with wells to be located no closer than 330 feet to the outer boundary of the spacing unit, or in the case of a horizontal well, no closer than 330 feet to the outer boundary of the project area.

The Ursa "27" Federal Com No. 1H was originally staked at a standard surface location 330 feet from the South line and 660 feet from the West line (Unit M) of Section 27. The location was moved to the proposed unorthodox location at the request of the United States Bureau of Land Management ("BLM") due to the presence of large sand dune features in this area.

The only affected offset tract, as shown on the attached map, is the N/2 N/2 of Section 34, Township 18 South, Range 30 East, NMPM. This tract is an existing 160-acre horizontal project area in the Bone Spring formation that is operated by Mewbourne. Please note that the working interest ownership between the S/2 S/2 of Section 27 (drill

tract) and the N/2 N/2 of Section 34 (affected tract) is not common. Consequently, notice of this application is being provided to the working interest owners within the affected offset tract. These owners are Chevron U.S.A., Inc., Yates Petroleum Corporation, Marigold Management, LLC, Marigold LLLP, Oxy Y-1 Company, Richard Yates, Brenda Yates, RKC, Inc., Roy H. and Helen Blackman Revocable Trust, Tulipan, LLC and Santo Legado, LLP.

Attached is an approved APD (Form 3160-3). Also attached is a Form C-102 showing the proposed well and proposed project area. Also attached is a map that shows the surface, first take point and bottomhole locations of the Ursa "27" Federal Com No. 1H, the proposed project area, producing area and affected offset acreage.

In summary, approval of the application will provide Mewbourne Oil Company the opportunity to recover additional oil and gas reserves from the South Leo-Bone Spring Pool underlying the S/2 S/2 of Section 27 that may otherwise not be recovered, thereby preventing waste, and will not violate correlative rights.

If you should have any questions, please call me at (505) 690-9453.

Sincerely,

David Catanach, Agent

Section 27, T-18 South, R-30 East, NMPM,
South Leo-Bone Spring Pool (37920)
Eddy County, New Mexico

Ladies and Gentlemen:

Enclosed please find a copy of the application filed by Mewbourne Oil Company ("Mewbourne") for approval of an unorthodox well location for its proposed Ursa "27" Federal Com No. 1H located at the surface, first take and bottomhole locations described above. The well will test the South Leo-Bone Spring Pool and will be dedicated to a standard 160-acre spacing and proration unit ("project area") comprising the S/2 S/2 of Section 27, Township 18 South, Range 30 East, NMPM. The United States Bureau of Land Management ("BLM") requested that Mewbourne move the surface location of the well from a standard location 330 feet from the South line and 660 feet from the West line of Section 27 to the proposed unorthodox location due to large sand dune features in this area.

As the owner of an interest that may be affected by the proposed unorthodox well location, you are being provided notice as per Division rules and regulations. Objections must be filed in writing at the Division's Santa Fe office within 20 days from the date this notice was sent to you. If no objection is received within twenty days after the filing of this application and proof of notice with the Division, the application may be approved.

If you should have any questions, please call me at (505) 690-9453.

Sincerely,

David Catanach, Agent

MOC's Ursa 27 Federal Com #1H Well
147' FSL & 223' FWL (SL)
660' FSL & 330' FEL (BHL)
Section 27, T18S, R30E
Eddy County, New Mexico

Ladies and Gentlemen:

Mewbourne Oil Company ("Mewbourne") as Operator proposes to drill the referenced well at the referenced surface location (SL) to a terminus point referenced above as the bottom hole location (BHL). The proposed well will be drilled to a true vertical depth of approximately 8,416 feet beneath the surface in the Bone Spring formation and drilled horizontally therefrom from a westerly direction to an easterly direction to evaluate the Second Bone Spring Sand Interval in the Bone Spring formation for oil production. The estimated true measured depth for this well will be approximately 12,900 feet with the well being dedicated to the S/2S/2 of the captioned Section 27 as its nonstandard oil proration unit and Project Area. The captioned well was originally staked at a surface location 330' FSL & 660' FWL of the captioned Section 27 but was moved to the above referenced surface location at the BLM's request due to sand dune features.

The above surface location is closer to the quarter-quarter Section line than is prescribed for the Leo South Bone Spring (Pool Code 37920) which provides for locations to be no closer than 330 feet from the quarter-quarter Section lines.

Regarding the above, Mewbourne is filing for Administrative Approval For A Non-Standard Location for the above well. As an offset Operator, Mewbourne is requesting a waiver of objection from Yates Petroleum Corporation ("Yates") regarding this proposed Non-Standard Location. Please indicate Yates's agreement to Mewbourne's requested waiver of objection by signing and returning this letter to me at your earliest convenience. In exchange for this waiver, Mewbourne agrees to grant Yates a similar waiver should Yates elect to drill a Bone Spring well on its leasehold in the N/2 of Section 33, T18S, R30E, Eddy County, New Mexico.

Sincerely yours,

MEWBOURNE OIL COMPANY
