Reference is made to your application received on December 23, 2013.

COG Operating LLC has requested approval of four standard 40-acre oil spacing and proration units plus one 27.18-acre non-standard proration unit totaling 187.18 acres in a designated wildcat pool (WC-015 G-05 S202935P; Bone Spring (Pool Code 97995)), consisting, respectively, of Lot 1, Lot 8, Lot 9, Lot 16, and NE/4 SE/4 of Section 1; all in Township 21 South, Range 28 East, NMPM, in Eddy County, New Mexico.

Irregular Section 1 is oversized due to a variation in the legal subdivision of the United States Public Lands Survey.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 4.12.A(2), in all adjoining units towards which the well encroaches.

Pursuant to the authority conferred by said Rule, the Subject Units are hereby approved.
