Mr. Brooks:

Burnett Oil Co., Inc. respectfully requests an exception without notice and hearing to NMOCD Rule 104 for the Gissler A #47 (Loco Hills Glorieta Yeso).

This location is 100' feet unorthodox at the surface and only affects Burnett and no other lease holders. The working interest owners and interests of Section 23, Units A & H are the same. I have attached a map showing the Burnett leases in this area as well as a copy of our C-102.

Please contact me if you have any questions or need any additional information.

Thank you,

Leslie:

David decided to get what he could out the system and retired in early December 2013. He has relocated to his old stomping grounds in Durango. You can submit your applications to our new co-worker, Mike McMillan, who is learning the process. I can also receive your applications if you have concerns that they are getting lost in the "ether". Hi Phillip,

I have been trying to reach David Brooks by phone and email. I left a voicemail but haven't heard back and my emails keep bouncing back. Is there someone else that I need to be sending these NSL requests to? We are getting ready to drill this well soon and I am concerned about getting this NSL approve.

Any help would be appreciated.

Michael,

I believe this falls under surface obstruction as the BLM would not approve our original standard location.

Thanks

Why are you applying for the NSL? Is it to increase reserves, or a surface obstruction or both?
